

The Kingston Daily Freeman

VOL. LVII—No. 37.

CITY OF KINGSTON, N. Y., WEDNESDAY EVENING, NOVEMBER 29, 1927.

PRICE FOUR CENTS.

Street Lighting Will Be Increased On Broadway

Board of Public Works Authorizes Mayor Dempsey to Sign Contract With Electric Company for Increased Street Lights—Other Matters Before Board Tuesday Evening.

More and better street lighting of Broadway and the uptown and downtown business sections of Kingston assured in the near future as the board of public works Tuesday evening voted to accept the proposition of the Central Hudson Gas & Electric Corporation to double the street lighting on Broadway from the Pinebeck ferry to the Washington avenue viaduct at an additional cost to the city of \$8,335. The board authorized Mayor E. J. Dempsey to enter the contract at the sum stated.

Double Present Lighting.

The board has been considering street lighting along Broadway for some time and took the matter up with the Central Hudson Gas & Electric Corporation who had a survey made and submitted a proposition to the board to double the number of street lights. The additional cost of the new lights to the city would be \$8,335 yearly.

City's Lighting Bill.

It was brought out at the meeting that with the additional lights installed the city's street lighting bill would amount to about \$56,000.

Downtown Xmas Tree.

A letter was received from the Downtown Business Men's Association stating they had purchased a Christmas tree and asking the board to make arrangements to convey the tree to the corner of Broadway and Strand as was done last year. It was agreed to have the tree erected by the last of this week. The matter was referred to Superintendent Frank Mills with power.

Talk of a New Armory.

It was brought out that the army authorities had paid no attention to a notice from the board to lay the Hoffman street sidewalk. Secretary Linson was instructed to again notify the state army commission and also the board of supervisors.

In the general conversation that followed it was brought out that the state was contemplating the sale of its present armory as it was not adapted to the use of horse drawn batteries, and that a new armory would be erected somewhere else in the city.

To Borrow \$70,000.

Mayor Dempsey called attention to the fact that owing to some extra expenditures which had not been provided for that it would be necessary to borrow \$70,000 for the current expenses of the board, and it was decided to ask the common council for permission to borrow that amount needed.

Attended Airport Meeting.

Commissioners Fessenden and Ford reported that on Monday they attended the airport convention held at Albany.

Trouble With Sewer.

Isaac Abrahams, the Strand merchant, appeared before the board and stated that he owned a house on Murray street and that after every rain storm the cellar was flooded when the sewer backed up and he asked if the condition could not be relieved. It was referred to City Engineer Hallinan to see what could be done.

The William C. Schryver Lumber Company on Foxhall Avenue Sealed.

A communication that the sewer laid at that street some time ago had not been laid with sufficient grade and as a result there were times when it was impossible to use the toilets at the plant. The matter was referred to Superintendent Mills.

More Street Signs.

Val Schirick, the barber at 610 Broadway, asked permission to erect an electric sign in front of his place. It was referred to Superintendent Mills with power. The same action was taken with the request of the Kingston Coal Company for permission to erect a sign at North Front and Converse streets.

The Reis Deal.

The matter of the Reis deal concerning part of Grandview avenue to the city was referred to the city engineer to investigate and report at the next meeting.

Rails Are Scrap.

The Kingston Scrap Iron & Metal Company of Hasbrouck avenue submitted a report they had received from the R. W. Hunt & Company, engineers, in regard to what classification the rails of the trolley road that had been taken up from the city streets fell into. The report stated that they could only be classified as scrap rails owing to their condition. The report was accepted by the board. Under the terms of the contract the Kingston Scrap Iron & Metal Company will pay the board a gross ton for the rails. It is estimated that there are fully two hundred tons of rails that have been

Townsend Heads City C. E. Union

Officers Elected at Annual Rally of Kingston Local Union Held Tuesday in Rondout Presbyterian Church—Port Ewen Wins.

Milton P. Townsend was elected president of the Kingston Local Union of Christian Endeavor at the annual rally held Tuesday evening in the Rondout Presbyterian Church. The other officers elected were: First vice president, Miss Ruth Vredenburg; second vice president, Lawrence Jensen; recording secretary, Mescal Toms; corresponding secretary, Burton Van Deusen; treasurer, Miss Beatrice Powley. During the evening stereopticon slides of Montour Falls, the summer assembly of the State Christian Endeavor Union, were shown and proved most enjoyable. Following the business session of the evening games were played and a social time enjoyed. Refreshments were served. The Port Ewen Christian Endeavor Society was awarded the attendance shield for having 85 per cent of its active members present at the rally.

Mexican Bandits Kidnap American

Mexico City, Nov. 30 (AP).—An American, H. W. Thompson, manager of a mine at Copala, state of Guerrero, has been kidnapped by twenty bandits, special dispatches from Mazatlan state. The bandits demand 5,000 pesos (roughly \$2,500) ransom. Thompson was captured and taken to the mountains after the bandits attacked his home and were refused money and arms. They threatened to kill their hostage if the authorities were notified before the ransom was paid. One of Thompson's employees notified headquarters in Mazatlan, state of Sinaloa. He was instructed to send a messenger to pay the ransom and obtain his employer's release. The military commander, General Leopoldo Rizo, ordered that the bandits be pursued immediately and the rescue of the American effected.

Wagner Taken to Sing Sing Prison

Buffalo, N. Y., Nov. 30 (AP).—William Leroy Wagner, who was convicted of the murder of State Trooper Robert Roy and sentenced to die in the electric chair, left today for Sing Sing prison in the custody of Sheriff Brigham of Allegheny county. The youthful Canadea farmhand, who also was charged with the murder of State Trooper Arnold Rasmussen, reiterated his statement on the witness stand that the shooting was in self defense. As he boarded the train which will take him to the death house, Wagner's youthful wife, Mrs. Doris Wagner, who testified in his defense, and his mother bade him farewell.

Navarra Petition Denied.

Frank Navarra, Sr., of 37 Abbey street applied for permission to erect a two story frame building to be used as a dwelling and store at the corner of Foxhall and Flatbush avenues. As this was in a residential section the application was denied by the board.

Want More Light.

A petition was received from residents on Elizabeth street asking that a street light be placed in the center of the block at about 18 Elizabeth street.

President C. Ray Everett of the common council, who was present at the meeting, stated that at the present time there were street lights there but they were so positioned that the center of the block was in darkness and he urged that the request be granted. It was referred to the lighting committee.

Wants Home For Goats.

Ernest Terpening of Ulster Park sent in a communication to the board that he would like to find a nice home for his two Angora Billy goats, and was willing to present them to the city zoo in Forsyth Park. The communication was referred to Commissioner Ford.

Routine Matters.

Several routine matters were discussed and bills audited by the board, then went into executive session to open the sealed bids for the proposed new traffic signal system to be installed in the city.

Mayors to Talk Flood Prevention

Representatives From Nineteen Counties of Upstate New York Will Discuss Flood Prevention Measures.

Canastota, N. Y., Nov. 30 (AP).—Lessons learned from the recent disastrous floods in New England and lesser floods in northern New York state will be applied in a consideration of flood prevention measures here today at a conference of mayors and village presidents from nineteen counties of upstate New York.

The officials gathered at the invitation of the New York Development Association, Inc., and they were prepared to present reports of flood conditions in their localities. Possibility of state legislation to curb future floods was scheduled for discussion, among other subjects.

George H. Campbell of Oswego, president of the association, said the question was one of vital concern to New York state as a whole. "If the recent storm which caused the New England floods had been deflected 100 miles farther west," he said, "the Adirondack country undoubtedly would have experienced as serious damage and loss of life as Vermont."

The necessity for some sort of flood prevention and relief was emphasized by Mr. Campbell by a brief scrap of the recent northern New York floods. The Oswegatchie river at Ogdensburg reached its highest point in its history: 200 cellars in Watertown, on the Black river, were flooded; the town of Philadelphia was hard hit and required row-boats for transportation; and wash-outs of dozens of small bridges halted traffic on a number of highways. Construction of adequate reservoirs and regulation of river waters, as is now done in the Black river, and Hudson river valleys, was suggested by Mr. Campbell as one possibility of flood prevention.

CHRISTMAS CLUB CHECKS MAILED BY FIRST NATIONAL

The First National Bank of Rondout, Broadway and Strand, this afternoon mailed out over \$50,000 in Christmas Club checks to its 1,300 members.

Each year an increasingly large number of people use this method for accumulating money for Christmas shopping expenses, as well as for taxes, interest, insurance, coal, clothing and other things. Putting aside money regularly each week and then getting it back in one large lump sum is a system that appeals to many.

As announced elsewhere in an advertisement in this issue of The Freeman, the First National Bank of Rondout invites everybody to join its new Christmas Club, which is now forming. Indications point to a larger club than ever and those wishing to join are invited to register early.

In Police Court.

After a trial in police court today Albert Georges, arrested for refusing to move his automobile at the Orpheum Theatre Monday evening when ordered, was found guilty and fined \$10. Louis Mantone arrested for disorderly conduct on Wall street Monday evening was found guilty and sentence suspended. The trial of Eugene Sottile charged with the theft of an automobile was adjourned to December 14.

Ford to Erect Church.

Boston, Nov. 30 (AP).—Plans of Henry Ford to erect a church on his property in Sudbury were announced today by William Taylor of Haverhill. Taylor said that Ford, after a visit to Haverhill and Bradford yesterday, told of his plans and said the church probably would be a reproduction of the First Church of Christ (Congregational) of Bradford.

Petition of Kidwell Denied.

Washington, Nov. 30 (AP).—The petition of Edward J. Kidwell, a trial juror in the Fall-Sinclair case, asking permission to intervene in the contempt proceedings growing out of the mistrial, was denied today by Justice Siddons in Supreme Court of the District of Columbia.

Tom Mix's Father Dies.

Dubuois, Pa., Nov. 30 (AP).—Edwin E. Mix, 73, father of Tom Mix, comic puncher star of the movies, died at his home here last night from a heart attack. The elder Mix was a prominent horseman and it was the training he supplied his son that brought fame to the Mix name.

Plays Piano for Studio.

Arthur Alton of 363 Hasbrouck avenue has installed a new Seltzer Baby Grand piano in his music studio for the benefit of his pupils. It was selected from the warehouses of Frederick C. Winters, the Clinton avenue piano specialist.

BattleShip Now York Completed.

Norfolk, Va., Nov. 30 (AP).—Bound for the Pacific coast where she will be attached to the battle fleet, the battleship New York will sail tomorrow after having been modernized at the Norfolk yard at a cost of \$2,990,000.

Senator Jorge Roa Dies.

Madrid, Nov. 30 (AP).—Senator Jorge Roa, newly appointed minister of Colombia to Spain, who presented his credentials to King Alfonso only yesterday, died suddenly today.

Comforter Church Supper.

A pancake and sausage supper will be served in the hall of the Reformed Church of the Comforter this evening from 5 to 8 o'clock. The public is cordially invited.

Soviet Proposes Dissolution of All Armed Forces

Proposal Also Calls For The Destruction of All Weapons and Military Supplies and That Warships, Military and Aircraft Be Scrapped.

Geneva, Nov. 30 (AP).—Soviet Russia today threw a "peace bomb" into the opening session of the preparatory disarmament commission by formally proposing the complete abolition of all land, marine and air forces.

Admitting that the Soviet project was a radical suggestion, Maxim Litvinoff, chief of the Soviet delegation, called for the dissolution of all land, sea and air forces and the non-admittance of their existence in any concealed form whatsoever.

The proposal caused a profound sensation at the conference, although many delegates were seen to smile as if they considered the scheme more than Utopian as Litvinoff developed the sweeping Soviet project. The Russian delegate submitted as the other cardinal points of the project that all weapons and military supplies meant for chemical warfare, and all other material forms of armament be destroyed, that all warships, military and aircraft be scrapped, and that the system of calling up citizens for military training be discontinued.

The Soviet delegation introduced a resolution calling for the immediate working out in detail of a draft convention for complete general disarmament on principles submitted by them. The resolution also provided for the convocation of a disarmament conference not later than March, 1928. Scrapping of all warships and the destruction of all fortresses, if accepted by the powers, would be carried out in a period of from one to four years under the Soviet scheme.

Some Striking Phrases.

"Armed force is a weapon in the hands of the great powers for the oppression of peoples in small and colonial countries and the complete abolition of armaments is at present the only real means of guaranteeing security and affording a guarantee against the outbreak of war," was one of the striking phrases in the Soviet resolution.

Another striking phrase was that the existence of armaments and their tendency to growth, "by their very nature, inevitably lead to armed conflicts between nations, diverting workers and peasants from peaceful productive labor and bringing in a trail of countless disasters."

As the Russians desired a draft convention framed immediately, they did not favor waiting for additional international security, a question which is very close to the hearts of many European nations, particularly France.

After introduction of the Russian resolution, the forenoon session of the commission adjourned, but not before Dr. J. J. Louder of Holland, who presided, had declared that it was clear that the difference between the Russian viewpoint and that of the other nations was not in its aim, but in its method of approach to the problem.

Delinquent Dog Owners Notified

According to the records of the city clerk there are 350 dog owners in Kingston who have not paid the dog tax on their pets as required by law. These names have been submitted to Judge Shufeldt who is issuing summonses which are being served on the delinquent dog owners by the police.

Thirteen alleged delinquent owners have been notified to appear in police court Thursday morning at 10 o'clock. They are: Amedeo Altamari, 7 Wurts street; Michael Augustine, 249 Third avenue; Henry Alprin, 12 German street; Jacob Affron, 35 Murray street; Florence Anderson, 95 East Chester street; Edward Anderson, 41 Delaware avenue; Felix Ambrosio, 19 Cortis street; Frank Beto, 73 Pine Grove avenue; Ray Ameli, 65 Pine street; Solomon Abramowitz, 195 Albany avenue; William Anderson, 52 Ten Broeck avenue, and Mary E. Adams, 179 Down street.

A certain number of summonses will be issued each week until the entire 350 delinquents have appeared in police court.

These actions are brought to recover a penalty of ten dollars according to the provisions of Section 119 of Chapter 48 of the Laws of 1922 for failure or refusal to obtain a license for a dog or dogs owned or harbored by you during the current dog license year. If you obtain such license from your town or city clerk before the return day named in the summons herewith, and pay the fees and mileage provided by the justice court act, for the issuing and service of such summons, this action will thereupon be discontinued; otherwise judgment will be taken against you by default for such penalty, together with costs of the action, unless you duly appear and answer the complaint of the plaintiff herein.

Steamer Tremper Will Continue.

The Central Hudson Steamboat Company has decided not to discontinue the regular trips of the steamer Tremper from Albany, owing to the splendid weather for navigation. It was previously announced by the company that the Tremper would make her last trip of the season Friday, December 2.

New Owner of Craft Grocery

Grocery Firm of E. S. Craft & Son Company at 330 Wall Street Has Been Purchased by O. F. Farenhorst.

The grocery firm of E. S. Craft & Son Company at 330 Wall street has been purchased by O. F. Farenhorst, formerly of New York city. Abram Shapiro, from whom the business was bought, has made no business arrangements for the future but expects to remain in Kingston, where he will probably engage in another line of business.

Mr. Farenhorst will take possession December first and intends to conduct a high class grocery store, carrying a full line of groceries and a complete line of fruits and vegetables. The business will be reorganized by Mr. Farenhorst, who is a grocer with a wide experience, having conducted stores in New York city, his last place of business being at 1240 Madison avenue. Mr. Farenhorst has disposed of his New York city business and has come to Kingston to reside and make this city his future home. At present he is residing at 189 Pine street.

It is the intention of the new owner to extend the present business, to give his customers not only quality and service but price as well. The policies which made the business grow under the management of E. S. Craft and his son from a modest beginning to the present size will be continued and the new management's aim will be to give service of the best.

Some time ago E. S. Craft & Son sold out the business to the Messrs. Shapiro, Cohen and Kahn. The latter two sold out their interest to Mr. Shapiro, who continued to conduct the business until he sold out to Mr. Farenhorst, who takes possession tomorrow.

GRAPE JUICE TURNS TO WINE, DRY CHARGES FOLLOW

Indianapolis, Nov. 30 (AP).—Grape juice which turned to wine was the basis of a liquor law violation charge on which officials of two Chicago courts faced trial in federal district court today.

The defendants were Elmer F. Nelburr, president of the United Vineyards Association; Carl A. Futner, president of the California Vineyards Company; Lester Hynes, a salesman for both companies; all of Chicago; and J. R. Gracie, district sales manager of the United Company at Port Wayne, Ind.

The United Vineyards Association, a subsidiary of the California company, sold grape juice with directions for fermentation so as to produce wine. George L. Winkler, deputy prohibition administrator for Indiana, said the association advertised various wines could be had, depending on the kind of juice purchased.

An attaché of Winkler's office bought five gallons of the syrup which, after directions had been followed, was said to have developed in wine with 12.55 per cent of alcohol at the end of 25 days.

When arrested October 6, the three Chicago men said they "wanted to go into court to prove that they had not violated the liquor laws."

SPECIAL MEETING OF DOWNTOWN BUSINESS MEN

A special meeting of the Downtown Business Men's Association will be held tonight at 8:30 in the rooms at 22 Ferry street. Important business will be transacted and every member is urged to attend.

The merchants of the downtown section are preparing for the Christmas celebration to be held December 10, when Santa Claus will arrive. The streets are being strung with wire for the support of colored lights which will illuminate the streets. Large wreaths will be a feature of the decorations this year and will be hung from one side of the streets to the other. Christmas trees have been ordered and will be more abundant than last year. They will be used to decorate the sidewalks and then given to needy families on Christmas eve.

Successful Pinocle Party.

The pinocle party at Mechanics' Hall Tuesday evening, which was held for benefit of the degree team of Charles DeWitt Council, No. 91, Jr. O. U. A. M., was a huge success, there being 56 tables of pinocle. Prizes were awarded and delicious refreshments served. The degree team wished to thank their many friends who helped to make the party a success, especially those who donated prizes.

Allen Plant to Close

The Lehigh Portland Cement Company plant at Alsen will close tonight for an indefinite period. The remaining employees of the company were so notified Saturday. Several weeks ago part of the force was laid off. The shutting down order followed a meeting of the board of directors in New York city last Friday.

Steamer Tremper Will Continue.

The Central Hudson Steamboat Company has decided not to discontinue the regular trips of the steamer Tremper from Albany, owing to the splendid weather for navigation. It was previously announced by the company that the Tremper would make her last trip of the season Friday, December 2.

Morris Miller in Bakery Business

Morris Miller of 243 Broadway is arranging to enter into the bakery business in this city under the name of the Kingston Sanitary Bakery.

He will take over the former Hawk's bakery at 62 Broadway, and will do his baking at 128 Hasbrouck avenue where he is having two modern American bake ovens and other equipment installed. Mr. Miller plans to open early in December, and will specialize on buttercrust bread.

Ask Bids for Traffic Signals

Public Works Board After Opening Bids Tuesday Decide to Prepare Specifications and Ask the Four Bidders to Re-submit Bids.

The board of public works at its close of the regular monthly meeting Tuesday evening went into executive session and opened four sealed bids for proposed traffic signal system to be installed here. Bids were received from the American Gas Accumulator Company, Joseph A. McNells of this city, Universal Road Machinery Company and the General Electric.

All four concerns submitted different prices on various types of signals, and after thoroughly discussing all four bids the board decided to prepare a set of specifications for the type signal it intends installing and to ask all four bidders to submit bids on the specifications which will be opened at the December meeting of the board.

Negro Held for Murder Lynched

Jenkins, Ky., Nov. 30 (AP).—Searing flames mounting from the top of Cumberland mountain signalled the death of Leonard Woods, negro, who was lynched by a mob of more than 200 armed men early today.

Woods, arrested for the slaying of Harshel Deaton, mine foreman for the Elkton Coal Corporation at Fleming, Ky., was shot to death as he faced a half circle of rifles. Then his body was placed on a platform recently erected for the dedication ceremonies at the opening of the Kentucky-Virginia highway. Gasoline was poured over it and a match touched off the structure.

The negro had been arrested near Fleming shortly after Deaton's body was found Sunday. Growing excitement caused officers to take their prisoner to Whitesburg yesterday for safe keeping. Late last night a mob of more than 150 cars arrived in Whitesburg. An unmasked throng of men approached the jail, sawed through its iron bars, placed a chain around the negro's neck and led him away.

Want More Light Along Broadway

Tuesday evening a committee from the newly organized Central Business Association met with the board of public works to discuss more and better lighting of Broadway during the holiday season. The committee was composed of J. Edward Conway, Max Reben and Lucius Doty.

Mr. Conway acted as spokesman of the committee and outlined the reasons why the committee was present. He said that the organization would be pleased to learn that the board had decided to sign a contract for more and better lighting of Broadway with the electric company, and asked if the board could not install larger lights in the present standards for the month of December.

Commissioner Fessenden informed the committee that last year and this year also the Uptown and Downtown Business Men's Associations had taken the matter up with the electric company and had had larger lights installed for the month, and the additional expense had been borne by both business organizations. He suggested that the Central Business Association take the matter up with the electric company.

The board informed the committee that it was hardly likely that the new lighting system would be ready this year.

LOCATE RELATIVES OF WOMAN FOUND AT TROY

Sheriff Arthur Rice was asked by the police of Troy to locate the home of Della Hill, who was picked up in Troy a few days ago acting in a peculiar manner. She has a return ticket for Kingston, and was taken to a hospital for observation. A letter to a woman named Schultz at Chichester was on the person of the woman. Sheriff Rice ascertained by telephone from Mrs. Schultz that the woman had worked at her summer boarding house and was married to Lloyd Hill. She had come away from three weeks ago and was subject to convulsions and had wandered away before. Mrs. Hill has a sister in Kingston who will be informed to meet Mrs. Hill when she is in condition to be sent back here from Troy.

Adopt Report Mortgage Moneys And Equalization

Board of Supervisors Also Adopt Report of Special Committee in Matter of Award Made in Claim of Hasbrouck Estate.

The board of supervisors at its meeting Tuesday evening adopted the report of the committee on county treasurer and equalizer as to the distribution of mortgage tax moneys and the report of the equalization committee establishing the ratios or percentages which the assessed value of real property of the several towns and city of Kingston bear to the full value of such real property. They also adopted the report of the special committee appointed in matter of award made in claim of Hasbrouck estate.

The apportionment of mortgage tax money as recommended by the committee on county treasurer and equalizer was as follows:

	Esopus, \$1,439.59; Gardiner, \$150.89; Hardenbergh, \$64.66; Hurley, \$210.55; Kingston, \$44.29; Kingston city, \$6,802.23; Lloyd, \$1,030.12; Marlborough, \$379.58; Marlborough, \$379.58; New Paltz, \$129.56; New Paltz village, \$304.42; Olive, \$78.92; Plattekill, \$267.01; Rochester, \$241.62; Rosendale, \$1,405.16; Rosendale village, \$203.06; Saugerties, \$671.54; Saugerties village, \$161.69; Shandaken, \$358.89; Pine Hill village, \$44.08; Shawangunk, \$339.98; Ulster, \$775.28; Wawarsing, \$719.52; Ellenville village, \$368.76; Woodstock, \$347.19. Total, \$18,677.73.
--	--

The ratios or percentages as reported by the equalization committee as adopted were:

	Ratios	Last Year
Denning	50	50
Esopus	32	32
Gardiner	32	32
Hardenbergh	46	40
Hurley	50	40
Kingston	47	44
Kingston city	71	45
Lloyd	59	59
Marlborough	50	45
Marlborough	62	58
New Paltz	35	30
Olive	40	25
Plattekill	48	30
Rochester	33	28
Rosendale	30	37
Saugerties	36	35
Shandaken	53	58
Shawangunk	62	60
Ulster	83	80
Wawarsing	29	27
Woodstock	23	25
	54	40

Hasbrouck Award.

Supervisors J. H. Heafon, Philip Schantz, Floyd Weiss, Matthew T. E. DeWitt and John H. Schultz, the special committee appointed in reference to the claim of the Hasbrouck estate in connection with lands taken for the approach to the Rondout creek bridge, reported in favor of a settlement of the matter. The report states that the committee after reviewing the question of the first award of \$71,250 and the second award of \$32,000 that the committee is advised that there is a serious question as to whether the second award is not absolute and final. The only other question involved is whether or not the award is excessive and "this is the only ground upon which an appeal could be taken, granting that an appeal from a second award could be taken. In this connection we desire to point out that the county has secured a substantial reduction from the previous award and it is the opinion of your committee that the best possible result has been obtained by the county. The award or any other award will carry interest from date of taking lands in question; which is approximately six years, and at a rate of six per cent per annum. The award will also carry taxable costs and any allowance made by the court. Your committee is therefore of the opinion that it is advisable to have an end to this litigation so that interest and costs will not be continually piling up. The committee feels that it would be a good business proposition for the county to pay the award in question, together with interest and costs or allowance that may be granted and thus terminate this proceeding. We further recommend that the county attorney be therefore directed to move for the confirmation of said report, or join in an application for its confirmation, and that the said award be paid forthwith.

The report was filed and Supervisor Schantz moved its adoption, which was unanimously adopted.

Resolutions laid over from previous meeting were called up and adopted.

On Motion of Supervisor Dunsberry the board adjourned until Wednesday evening, November 30, at 7:30 o'clock.

ISSUES DECREE ANNULING SHUFELD MARRIAGE

An interlocutory decree has been issued by Justice Joseph Roach at a special term of supreme court held at Monticello, annulling the marriage of Edwin R. Shufeldt to Julia Florence Schufeldt. The parties were married at Bridgeport, Conn., on January 31, 1927. They met in Kingston a few months before, both having been employed here and boarding at the same house. Since the marriage he made discovery that caused him to commence the action. The woman from whom his marriage is annulled lives at Lake Katrine now. There was no defense on part of defendant. Amos Van Eaten is attorney for Mr. Shufeldt.

Consolidation of Schools Opposed

Rural School Improvement Society to Draft Legislative Program at Syracuse Meeting—Wants More Money for Districts Not Consolidated.

Syracuse, N. Y., Nov. 30 (AP)—That the "little red school house" will come in for its share of attention again at the next session of the legislature is indicated in the program announced for the sixth annual meeting of the Rural School Improvement Society, to be held here December 1 and 2.

The society at that time expects to draft a legislative program opposing compulsory consolidation of the rural school districts, which has been the object of a vigorous fight for several seasons past, and will also seek to bring about legislative action on several other matters dealing with the country education question.

The exact steps to be taken by the society to oppose present compulsory consolidation statutes have not yet been made known, but it has been indicated that legislation will be introduced and hearings demanded at which rural residents would be allowed to express their views.

Such hearings in the past have furnished considerable color and no little interest and amusement at the Capitol, because of the intensity with which some of the opponents have stated their case. Spectators at one of the hearings still recall with smiles

the attendance of one man from a distant rural section. On a recent local appearance because of a sudden change in the style of his overcoat, he was gazed at with interest and a "humbly" about a year ago when that in contrast to the previous attitudes of the Assembly members, where the hearing was held.

Carrying out the "rural" purpose of the society, the organization at its meeting here will hold a "country late" dinner on the night of December 1, 1928, the time of the "farm dinner" held each year by the State Agricultural Society.

According to announcement by the society, one of the matters to be discussed will be a proposed amendment to the education law so that rural school districts which have not been consolidated "will receive the same generous proportion of public money for each teacher that is granted consolidated districts already."

The society contends that the state education department is attempting to force consolidation of rural districts against their will, while the argument of the department is that such consolidation is for the best interests of the districts concerned, in that it allows larger schools with greater modern educational facilities.

Snake Myth Exploded

That the tail of a snake will live until sunset when a snake is killed during the day, is merely an old myth. Owing to the reaction of the snake's nervous system its tail will continue to wiggle long after the snake is otherwise apparently dead. But there is nothing to the notion that it will continue to wiggle until sunset and then stop. Sometimes it will stop before and sometimes after sunset.—Exchange.

FIRST DUTCH CANTATA GREATLY APPRECIATED

The cantata, "A Song of Thanksgiving," by Maunder, drew a large and appreciative audience to the First Dutch Church Sunday evening. The galleries, as is usual on the occasion of special musical services, were filled, and the main floor also saw a splendid audience. Dr. Boeve presented a short sermon on "The Name Above Every Name" shortening the preliminary part of the service to give time for the cantata.

Mr. Fiedenburgh, organist and director, never played to better advantage. For variety and beauty of expression it would be difficult to find a cantata that excels this Song of Thanksgiving. The opening chorus, "O, Come—Let Us Sing Unto the Lord," gives expression to all the volume that instrument and voice are capable of producing. The duet by Mrs. Johnston and Mr. LaTour, "The Eyes of All Wait Upon Thee," was a marked contrast, expressive of gentle care. This again was followed by a solo, soft and sweet, "When O'er the Trees of Eden Shone the New-created Day," by Mrs. Johnston. The virility of the male voices came out forcefully in the song of creation, "Great is the Lord," the full chorus joining in the refrain.

As another happy contrast came the trio, "God the Lord Hath Spoken," by Mrs. Johnston, Mrs. C. F. Doty and Mr. LaTour. The recitative air, describing the fulfillment of the Lord's promise, was most dramatically and effectively sung by the church's contralto, Mrs. Doty. The interpretation of the

Master's word, "Consider the Lilies of the Field," was striking. Mrs. Johnston's solo, "O Lovely Flowers," as the messengers of God, held the audience spellbound.

The old Scotch hymn, "All People That on Earth Do Dwell," and the long-meter Doxology brought the service to its conclusion.

Many worshippers, some of them from Shokan, Woodstock, and other neighboring communities, carried after the service to congratulate the director and his splendid choir. The prelude to the service, Pierre's "In the Cathedral," brought out the beautiful effect of the echo organ with its chiming and harp. It was a service that will long be remembered by all who were in attendance.

Little Soil Not Tilled

In Guatemala and Salvador, the two most populous countries in Central America, the population is so dense that there is very little waste land. Guatemala has 2,400,000 people and Salvador with an area of only 7,225 square miles, 1,040,000 or 144 persons to the square mile. This is the densest population in the western hemisphere. These countries are rich in sugar, coffee, minerals, rice, hemp, cotton and bananas.

WONDERFUL OPPORTUNITY TO SECURE SERVICEABLE XMAS GIFTS.

NEW YORK CLOAK & SUIT CO.

33 NORTH FRONT ST.,

KINGSTON, N. Y.

"How best can I trade-in my present car for a new car?"

WHEN you are ready to trade-in your present car for a new car, you naturally want full value for your present car. But most of all you want full new car value.

Remember these basic facts:

- 1 Your present car has only one fundamental basis of value: i.e., what the dealer who accepts it in trade can get for it in the used car market.
- 2 It has seemingly different values because competitive dealers are bidding to sell you a new car.
- 3 The largest allowance offered is not necessarily the best deal for you. Sometimes it is; sometimes it is not.
- 4 An excessive allowance may mean that you are paying an excessive price for the new car in comparison with its real value.
- 5 First judge the merits of the new car in comparison with its price, including all delivery and finance charges. Then weigh any difference in allowance offered on your present car.
- 6 Remember that you are making a purchase—not a sale. You are simply using your present car as a credit against buying a new car and the new car's purchase price.

HEAD-WEAR IS REVISED
AS AN AID TO A PLEASING
COMFORT DURING THE
PROCESS OF GROWING
HAIR.

On Board S. S. Majestic—With so
many women, on our side of the
Atlantic at least, going through the
process of growing hair, it is no won-
der that Paris designers, as well as
our own, have turned their attention
to creating attractive head-dresses
to aid in the problem of attaining an
effective coiffure under trying cir-
cumstances.

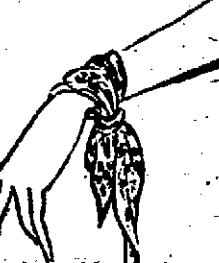

Reports are insistent that the head
is as much in evidence as ever in
Paris—I shall be able to give you
first-hand information about that
very shortly. But evidence seems to
point to a return of the coiffure band,
and even to the dinner hat, usually
a draped Oriental head-dress, some-
times a tiny cloche with coquettish
eye veil.

One such is being worn abroad, a
stied cloche of mulline, with ribbon
band and brilliant jeweled buckle,
and a brim that serves as a founda-
tion for a tiny mulline veil, an inch
deep—or maybe a trifle more—just
enough to veil the eyes. There is
said to be something rather Orien-

How to Wear Your Printed Silk Handkerchief

in suggestion in any head-dress,
and many of the new models strive

Get finer flavor in the foods you bake—this way!

You want more than good looks—you want
fine flavor in the foods you bake. The secret
is in your flour—be sure you use the right
kind. Flour made from the wrong type of
wheat will often produce cakes or biscuits that
are perfect in appearance but disappointing
in taste. To be sure of finest flavor, insist on
Pillsbury's Best Flour. It is made only from
carefully selected, full-flavored wheat—it will
give you that delicious, delicate, unmistakable
flavor that marks your perfect baking—you
can depend on that, always!

for better flavor, use this one fine
flour for all your baking

THE
KITCHEN
CABINET

The constant duty of every man
to his fellow is to ascertain his own
powers and special gifts, and to
strengthen them for the help of
others.—John Ruskin

I present to you a line of real
beef, I do reverence a loin of real

SEASONABLE SUGGESTIONS

To give variety and elegance to in-
formal meals there is no better aid
than a well-stocked fruit
cabinet. This is the time of the
year to fill the
shelves with jams, jellies,
preserves and conserves.

The following sugges-
tions may be worth while
in regard to their use:

A cornstarch pudding
topped with a spoonful
of strawberry preserves or any other
small fruit, makes a plain dish quite
out of the ordinary.

Any pudding like rice, bread, left-
over cake with plain custard is richer
and more tasty with a spoonful of
Jelly or jam dotted over it.

Milk toast is delicious served with
blueberry jelly, blackberry jam or
loganberry preserve.

A firm jelly may be cut into cubes
to use in fruit salads, to garnish cock-
tails, cake frosting, as well as ice
cream.

Jelly rolls, jelly tarts, jelly dough-
nuts and jelly omelet are all easy to
make if one has plenty of jelly.

Jams or jellies are good to serve
with waffles and griddle cakes; piled
in layers with plenty of butter and
Jelly on each layer, they may be cut
as pie and are served as dessert.

Very small baking powder biscuits,
opened and spread with butter, then
with jam or jelly are fine; cover and
serve hot as a tasty sandwich.

Apple sauce with a few spoonfuls of
strawberry jam added makes an en-
tirely different sauce.

Crush strawberries until well-
mashed, then take equal measures of
sugar, stir and let stand in a cool
place until all the sugar has been
well dissolved and absorbed by the
berries. Have cans well sterilized and
cool, fill and seal without cooking.

Keep in a very cool cellar and they
will be good to the last can. Rasp-
berries and other small fruits may be
canned fresh in the same way. This
is the time to preserve watermelon
pickles for the winter. Soaked over
night in salted water, then cooked in
clear water until tender, and then
dropped into a spicy vinegar and
sugar and scalded, then canned, they
will be a welcome dish in the winter.

Nellie Maxwell

Punish Without Hate
Insist that the criminal be punished.
But don't hate him too intensely—he
might have had a good mother.—
Atchison Globe.

for this effect. Sometimes long pen-
dant ornaments simulating earrings
are added.

Earrings, by the way, are very
much in evidence just now, in rather
exaggerated and often very decorative
effects that are none the less ef-
fective because of belonging to the
costume, rather than to the precious
jewelry class. Many bracelets are
also worn—rather massive gold af-
fairs, gold jewelry having had a
successful revival.

Rhinestones are also much worn,
and the fact of the moment includes
rhinestones, pendants, necklaces, and
tiny animals placed in the centre or
in one corner of velvet or antelope
hand bags.

Annoying
Night Coughs

Suppressed Almost Instantly.

Very frequently adults and chil-
dren, especially children, have spells
of night coughing due to bronchial
irritation, or while suffering from
colds. These coughing spells, if not
quickly checked, are very injurious
to the health.

A famous physician's prescription
called Thosine, much better than
patent medicines and cough syrups,
relieves the irritation and stops the
cough within 15 minutes or money
back. Contains no chloroform, dope
or other harmful drugs. Pleasant
tasting and safe. 35c, 60c and
\$1.00. Ask for Thosine. Sold by
Kingston Central Pharmacy and all
good drug stores.

OUR DAILY PATTERNS.

A Dainty Frock for a Tiny Tot.
5957. Cotton prints, challie, pon-
gee, voile or batiste may be used for
this design.

The pattern is cut in four sizes: 2,
3, 4 and 5 years. If made with long
sleeves, a four-year size will require
1 1/2 yard of 27-inch material together
with 1/2 yard of contrasting material
for facing on yoke, cuffs and pockets.

If made with short sleeves 3/4 yard
less of material is required.

A pattern of this illustration
mailed to any address on receipt of
12c in coin or stamps by the Pattern
Department, The Freeman, King-
ston, N. Y. Be sure to state the size
wanted.

Fashion Book Notice.
Send 15c in coin or stamps to The
Freeman for our up-to-date Fall
and Winter 1927 Book of Fashions
showing color plates, and containing
500 designs of ladies', misses' and
children's patterns, a concise and
comprehensive article on dressmak-
ing, also some points for the needle
(illustrating 30 of the various sim-
ple stitches), all valuable hints to
the home dressmaker.

Heroic Dead Honored
in Unique Art Work

Visitors to Westminster abbey, says
the London Daily Mail, have discov-
ered a new wonder to admire in the
roll of honor of the royal army medi-
cal corps, which has been placed open
in a special case in the Chapter house.

In it is recorded the names of medical
officers who died in service in the
World war. It cost £2,500 to make
and took three years to complete.

Known as the Gold Book, it is the
work of an accomplished illuminator,
Mr. Graily Hewitt. In his task he had
the help of six attendants, five of
whom were women, but most of the
writing he did himself. It is writ-
ten in Fifteenth century Italian style,
from which our printing was evolved,
and so is easy to read. Even the
closest examination fails to convince
the observer that such perfectly
formed letters could be written by
hand. There are 220 pages of writ-
ing, giving in red the rank and date
of death, in black the name, and in
gold the medals won by the fallen.

Each page is fully illuminated in
red, brown, gold, green and blue, with
pictures of trees, scrolls and natural
life.

Meanwhile

The profile, Wells (the adjective
renders it unnecessary to give his
initials) is out with another novel.
It is called "Meanwhile," and an
inkling of its message, or at any rate
an explanation of its title, can be
gathered from the following extracts:

"What is life for you is meanwhile
for most of us," says Semple, the
forward-looking theorist.

"Have I been living?" inquires an-
other character. "Or have I just been
meanwhileing away my life?"

That is a question a good many of
us might profitably put to ourselves.

Comfortable Garment

A pea jacket is a thick, loose, woolen
double-breasted jacket or coat which
is worn chiefly by sailors in cold
weather. The origin of the name is
obscure. It is supposed to be derived
from the Dutch word "pij" or "pijs,"
which means a coat made of coarse
woolen goods.—Exchange.

STOP BAD BREATH

People afflicted with bad breath find
quick relief through Dr. Edwards' Olive
Tablets. The pleasant, sugar-coated
tablets are taken for bad breath by all
who know them.

Dr. Edwards' Olive Tablets act gen-
tly but firmly on the bowels and liver,
stimulating them to natural action,
clearing the blood and greatly purifying
the entire system. They do that which
dangerous cathartics do without any of
the bad after effects.

Olive Tablets bring no griping, pain
or any disagreeable effects.

Dr. F. M. Edwards discovered the
formula after 20 years of practice among
patients afflicted with bowel and liver
complaints, with attendant bad breath.

Olive Tablets are purely a vegetable
compound mixed with olive oil; you will
know them by their olive color. Take
sightly for a week and note the effect.
Box, 30c. 60c. All Druggists.

There are so many occasions
when one feels uncomfortable unless
the neck is fashionably encased in
velvet or fur, or in one of the stu-
pendous lams or rhinestone-studded chif-
fon scarfs in use, scarfs that are
often three-cornered after the man-
ner of a small shawl. One of the ef-
fective ways of accentuating an ex-
tremely low back, and at the same

time making it appear less frank, is
the trick of stringing a necklace
from side to side or by adding some
sort of jeweled harness. Many good-
looking dance frocks have one long
scarf-end—or even two—that may
be made to do practical service
when the occasion demands.

With evening wraps as luxurious
as they now are, it is, of course, no
hardship for the possessor of one to
saunter down an aisle wrapped in
one of these stunning affairs. Many
are in dolman effects, others have
sleeves, and still others are made
on cape lines. The point is that the
material shall be exquisite and
striking, and that the collar shall
rise high about the throat, and if it
is of fur, continue mid-way. If not
to the hem of the garment. All fur
collars are elongated, and all fur
neckpieces show the same graceful,
although extravagant tendency, no
matter what the fur.

EVERYTHING for EVERYBODY

fur collar, and stunning pendant
earrings make a happy combination.
Standing or bulky collars and wide
brims spell disaster to the average
woman.

Slenderizing Effect Sought.
The elongated fur collar, or the
equally fashionable waist-length fur
reaver, like other long lines, helps to
produce an effect of slenderness.
There is a good deal of favoritism
accorded flat furs largely because
they too have a slenderizing effect,
a quality that balances the charge
that they are not as becoming as
long-haired ones. Shaved lamb and
krimmer are being made excellent
use of this season, as well as a score
of other flat furs, several of which
are so cleverly treated that they de-
fy recognition, which perhaps is for-
tunate.

Possessing a fur coat entails all
sorts of responsibilities; one must,
of course, complete one's costume
accordingly. A smart handbag is
one of the essentials. The newest
ones have frames that are extraor-
dinary in many ways, often because
of their clasps, which may be two
huge balls of metal or of crystal,
and often too because of their shape,
several of the smartest bags being
almost round. Velvet and antelope
are the most important bag fabrics.
Suede shoes with matching suede
bags have a natural affinity, and are
in harmony with any sort of a fur
coat.

(Copyright, 1927, by Metropolitan
Newspaper Service, New York.)

Derivative Appellation
Max Muller called the theory that
all language originated in onomat-
opoeia—that is, the formation of words
in imitation of natural sounds, such
as "crack," "tap," "bang," etc., the
"bow-wow theory."

Annual Loss by Lightning
The value of property destroyed by
lightning in this country is in excess
of \$20,000,000 each year, according to
authorities on the subject of fire.

Flashes of Life Sketched in Brief

(By The Associated Press.)

New York—The services of a former Chicago newsboy who has the reputation of belonging to more generations than anybody else in the national district continue to be in great demand. Matthew C. Brush, president of the American International Corporation, has been offered the chairmanship of the board of the Westinghouse Electric and Manufacturing Company. After settling the attention of big business by becoming president of the Boston Braves when 39 years old.

Philadelphia—Policemen should be college graduates in the opinion of Prof. Harry Elmer Barnes of Smith College. "As it is," he told the Women's International League for Peace and Freedom, "only the more unfortunate and the more incompetent criminals are caught."

New York—Mrs. Elsie Knapp Forbell of Newark, N. J., and Mrs. Elsie Knapp Forbell of Douglas Manor, Queens, N. Y., are unrelated doubles. A mistake made by a friend of one led to a meeting a month ago and now they are close friends. Each is 5 feet 8 and has dark brown bobbed hair and grayish blue eyes. They are of the same age and both interested in art, psychology and scientific looking. One is a widow.

Atlanta—Bobby Jones is progressing on the legal links. When he argued his first case in a moot court law school the way he swung his arguments created quite an impression. The match was halted. There was a mistrial.

Washington—A communique from the war department announces that Colonel Lindbergh has been killed in action and General Harbord has been severely wounded. They are carrier pigeons whose home was in an army loft at Fort Monmouth, N. J. Bearing messages from New York toward Washington they were shot by hunters. General Harbord reached the loft with his message. The colonel is missing.

Paris—Deauville is a second rate when it comes to the spending of cash. Letouquet leads this year in receipts of casinos in France with 1,800,000. Deauville is next with 1,739,000.

Toronto—Eyeglasses will be a necessity of the future if the vision Dr. Charles E. Shepard of the

University of Illinois is realized. He said that with proper training eyes could be accustomed to modern conditions which subject them to immense strain.

New York—If a chronic smoker fears cancer he should try a hookah. Hot pipe stems and hot smoke frequently cause cancer of the lip, in Turkey where smoke is cooled by passing through water, cancer of the lip is very rare. This from Doctor John C. A. Gerster, chairman of the City Commission of the American Society for the Control of Cancer.

New York—A monument to Theodore Roosevelt on the heights of Cebra Cut is the aim of Dr. Beltrario Porras, former president of Panama. Mrs. Harry Payne Whitney will design it.

PLATTEKILL GRANGE CONFERRED DEGREES ON 25

At the regular meeting of Plattekill Grange Saturday evening, November 26, the third and fourth degrees were conferred on a class of 25 candidates. An appropriate tableau featured each degree. C. Ira Thompson was elected delegate to Ulster County Pomona session at Lake Katrine, December 2. An old fashioned box social with some good music will be held in the near future. Rehearsals will begin this week for a three-act comedy mystery play entitled "Anne, What's Her Name?"

The following Thanksgiving program was rendered:

Reading of President's Proclamation, by Lecturer
Vocal Solo—Pal of My Cradle Days, by Mrs. Ramona Bonczek
Recitation—A Turkey's Soliloquy, by Gordon Lozier

Thanksgiving Tableaux—Portrayed by C. Ira Thompson, Mrs. William Harris, Lalita Harris, Mrs. S. Dransfield, in Puritan costumes
The First Thanksgiving—Recounted by the Rev. J. William Taylor

Roll Call
What I'm Thankful For

The refreshment committee served rolls, frankfurters and coffee. At the next meeting on December 10 the officers for 1928 will be installed. Refreshment committee—Mr. and Mrs. Arthur Coy, Mrs. James Coey, Mrs. J. Denton, Eber Smith, Mr. and Mrs. Albert Moran, Mr. and Mrs. Eugene Patridge, Mrs. Harold Patridge, Earl Terwilliger.

The Service Chevron

The only part of the present army uniform that dates back to the Revolutionary war is the stripe on the left sleeve, denoting length of service. Orders were issued in 1782 that all men who had served four years in the Continental regiments should wear a band of white tape on the left seam.

CHARLES A. WARREN
260 Fair St. Kingston, N. Y.

The New Ford Car will sell at a SURPRISINGLY LOW PRICE

Complete details of the new car which will be
officially announced
this FRIDAY

THE MINUTE you see the pictures of the new Ford car you will be delighted with its low, smart lines and the artistic color combinations. There, you will say, is a truly modern car.

But a still greater thrill awaits you when you slip into the roomy seat behind the wheel and start away for your first ride. Then you will know that you have found the most unusual value ever offered in a low-price car.

You will like the feeling of speed and power that the new Ford gives you—the comfortable, prideful feeling that comes from having a car worthy of any occasion and equal to every emergency.

You will like the flexibility and safety of the new Ford car as you weave in and out of city traffic—its flashing pick-up as the light turns green and the sign says "Go." You will like its smooth, quiet steadiness on the open road where you can lazy along according to your mood, or do 55 and even 65 miles an hour if you desire. The new Ford has unusual speed—no doubt of that!

*A smart, low, speedy car that
has been built to endure*

The new Ford will climb hills that you never thought a low-price car would climb on high. It will pass cars that you never thought you could pass. The longest trips will seem easy, for here is a car that puts new joy in motoring.

There is still another reason why the new Ford car is the most outstanding value ever offered in a low-price car. An important three-word reason that means a great

deal to you—*endurance—durability—long life.*

The new Ford car is made to stand up under thousands upon thousands of miles of steady running over all kinds of roads. It has even more stamina than the Model T Ford because we have learned to make every part stronger and sturdier without increased weight or greatly increased cost.

Many of the Model T Ford cars are still in active service after 75,000, 100,000 and 150,000 miles. This new Ford car will do even better. In the words of Henry Ford: "It is our ambition to have every piece of machinery or non-consumable product that we turn out so strong and so well-made that no one ought ever to have to buy a second one."

*Four-wheel brakes and standard,
selective gear shift*

On the right, we are printing, for the first time, the complete details of the new Ford car. Read them over carefully, especially the paragraphs dealing with the new engine, the new bodies, the new standard, selective gear shift transmission with roller bearings, the new four-wheel brakes, the new hydraulic shock absorbers, the new mechanical design ignition, the new oiling system and the new dry-plate, multiple-disc clutch.

Then decide that whatever else you do Friday you are going to set aside at least fifteen minutes to get the full story of the new Ford car. It is more than a new automobile. It is the advanced expression of a wholly new idea in modern, economical transportation.

FEATURES OF THE NEW FORD CAR

55 TO 65 MILES AN HOUR

The new Ford has unusual speed. It will do 55 to 60 miles an hour with ease. This is a conservative statement. In many road tests it has exceeded 65 miles an hour. So well does the new car hold the road that you can travel at high speed for long stretches with a new feeling of comfort and safety. Even bad roads may be taken at a fast pace. You will be delighted too with the way the new Ford climbs the hills. You will face the steepest grades with confidence, knowing you have power and power to spare to climb them all without greatly reduced speed, without strain, or unnecessary shifting of gears.

40-HORSE-POWER ENGINE

At 2200 revolutions per minute, the new Ford four-cylinder engine develops 40 horse-power. This r. p. m., or revolution speed, is low for such power and shows that the engine is unusually efficient. It also means long life, for the lower the speed of the engine, the less the wear on its parts. The bore is 3 1/4 inches and the stroke 4 1/4 inches. (S. A. E. and N. A. C. C. rating for license purposes, 24.03 horse-power.)

REMARKABLE ACCELERATION

The new Ford is remarkably quick on the get-away. In tests in high gear, with a Tudor sedan body and two passengers, it has accelerated from 5 to 25 miles per hour in 8 1/2 seconds. This acceleration is an outstanding feature of the new Ford car.

PREVENTING VIBRATION

The engine in the new Ford is practically vibrationless. This is due in part to its lower r. p. m., the statically and dynamically balanced crankshaft, and the aluminum pistons. To insure quiet, the timing gears are made of bakelite fabric instead of metal, and the cams on the camshaft are so designed that the valve push rods follow them closely, preventing valve clacking.

GASOLINE ECONOMY

You will get from 20 to 30 miles per gallon of gasoline, depending on the speed at which you drive. Feed to the carburetor is by gravity from a unique welded one-piece steel tank integral with the cowl.

UNIQUE NEW OILING SYSTEM

The oiling system is distinctly Ford in design, being a combination of pump, splash, and gravity feed. The pump delivers the oil to the valve chamber, from which it flows by gravity feed to the main bearings of the crankshaft. An oil dipper is provided on each connecting rod bearing cap, so that the force of rotation of the crankshaft drives oil into the connecting rod bearings, as well as splashing oil over all working parts within the engine. This is a simple but entirely dependable system, assuring proper lubrication of each bearing and each cylinder without pressure.

PERFECTED COOLING

The new Ford car has a centrifugal water pump, and large radiator. The fan runs on the pump shaft and is made according to airplane propeller design. It is exceedingly difficult to make the new Ford engine overheat; only abuse will do it, such as running without enough oil.

IGNITION SYSTEM OF NEW DESIGN

The ignition system of the new Ford is unique in mechanical design, extremely simple, and will give the car owner exceptional performance with a minimum of trouble. There is only one coil, in a water-proof case. The distributor is located on top of the engine where it is clean and easily accessible. Connections are made to the spark-plugs by short bronze springs. The coincidental lock on the new Ford is placed in the ignition circuit. It not only replaces the regular ignition switch, but in the "off" position grounds the entire circuit. From the switch to the distributor a steel cable protects the primary current wire, this wire being grounded to the distributor casing, thereby making it impossible to wire around the device. The new generator is of the power-house type.

STANDARD, SELECTIVE GEAR SHIFT

The new Ford transmission is of the selective sliding gear type, with standard shift. It has three speeds forward and one reverse. The main shaft runs on ball bearings, the countershaft on roller bearings, and the reverse idler on a bronze bearing. This is the highest type of bearing mounting and is unusual on light cars. All gears are made of heat-treated chrome alloy steel. You will be delighted with the easy, noiseless shifting of gears in this new transmission. You can go from one to another easily, silently, with the pressure of a finger.

EXCEPTIONALLY EASY TO STEER

The steering gear on the new Ford car is irreversible. Shocks are not transmitted back to the hands of the driver. You need not grip the wheel tightly. A light touch is enough to guide the car safely. Large steering wheel is made of steel, covered with hard rubber. Light switch and horn button are conveniently located on top of wheel.

NEW FOUR-WHEEL BRAKES

The brakes on the new Ford car are an exclusive Ford development. They are of the mechanical, internal expanding-shoe type and are self-energizing. This is the most reliable and the simplest type of four-wheel brake and the easiest to adjust. All adjustments are made from the outside without removing any parts. No special tools are needed. Uniform, correct adjustment on each

wheel is quickly and easily obtained. The brake pedal and the hand lever each operate all four brakes. Total braking surface is 168 square inches. All brake working parts are cadmium plated to make them rust-proof.

MULTIPLE DRY-DISC CLUTCH

The clutch in the new Ford is of the multiple dry-disc type, which is the most reliable. It is also the easiest to operate, for it takes hold gently and smoothly. It has four driving discs and five driven discs.

COMFORTABLE TRANSVERSE SPRINGS

The springs are of the transverse, semi-elliptic type, designed and built for the new Ford. This type, which was used in the Model T, was adapted to the new car because no better spring type could be found. They are built of the finest spring steel, and the leaves are wide and thin. Each spring is built up of varying sizes and number of leaves to give proper flexibility and to meet riding requirements of the different body types. The size and number of leaves used in these springs is one of the reasons why the new Ford is such a comfortable car. The construction of the transverse springs also contributes to the safety and efficiency of the 4-wheel brakes.

HYDRAULIC SHOCK ABSORBERS

The finest type hydraulic shock absorbers are standard equipment on the new Ford. These combine with the low center of gravity, the minimum unsprung weight, and the easy riding qualities of the transverse springs to make the new Ford one of the most comfortable cars on the road today.

THREE-QUARTERS-FLOATING REAR AXLE

The rear axle of the new Ford is of the three-quarters-floating type. The axle housings are made entirely of steel, built up by welding steel forgings to steel tubings. The differential housing, to which these housings are bolted, is made of rolled channel steel. The axle shafts carry none of the weight of the car, the wheels running on roller bearings on the housing. All bearings in the rear axle are of the roller type. Drive is by spiral bevel gears.

FORD-DESIGNED STEEL-SPOKE WHEELS

Original design and great strength are two features that mark the unique, Ford-designed steel-spoke wheels. Each wheel is assembled by welding, and becomes one piece of metal. Spokes cannot work loose. Each spoke has a tensile strength of 4000 pounds. Outside spokes do not cross, so that the wheels are easy to clean. There are only 30 spokes in each wheel.

BEAUTIFUL NEW LOW BODY LINES

There is a bit of the European touch in the coachwork and contour of the new Ford. Bodies are steel. Fenders are of the full crown type. Appointments and hardware are of a luxurious type seldom found in a low-price car. Upholstery is of rich, durable material. Cushions are deep and easy. Door handles and window lifts are fully nickel-plated. Speedometer, gasoline gauge, ammeter and ignition lock are mounted on an instrument panel of satin-finish nickel, illuminated by a lamp in center. Headlamps and radiator shell are fully nickel-plated. Closed cars have the new military-type sun visor and crown roof. Great care has been taken in designing the new Ford to provide generous seat space and ample leg room. Clear, unobstructed vision is assured at front by unusually narrow pillars and at sides by specially designed doors with large windows.

CHOICE OF FOUR COLORS

The color combinations used on the new Ford are especially artistic and attractive. Four color choices are offered for each body type—a most unusual feature in a low-price car. Purchasers may choose any one of the following colors—Niagara Blue, Arabian Sand, Dawn Gray, and Gun Metal Blue. Belt and reveals are finished in contrasting colors, with attractive striping. The finish is pyroxylin lacquer, one of the finest and most enduring finishes for automobile bodies. It is not affected by heat or cold, withstands all kinds of weather conditions, and is not easily marred or scratched. The lacquer actually improves with washing.

A QUIET CAR

In designing the new Ford, every precaution was taken to prevent squeaks, rattles and drumming sounds. Body panels and frame sections are welded and riveted together wherever there is possibility of the body warping. In all structural details the new Ford bodies are built to afford the utmost quietness and comfort.

GREASE GUN LUBRICATION

The chassis of the new Ford is lubricated by the pressure grease gun system, the simplest and most effective method of lubrication.

SARDINIAN GIRL ENTERS LOTTERY TO STOP STRIFE

Rivals for Hand of Maid
From America Lose When
She Rafles Self.

Caligari—In the Sardinian country town of Caligari there was recently presented the extraordinary spectacle of a lottery for the purpose of ending the strife between the two rival suitors of a young and beautiful Sardinian girl, thus ending a quarrel a year long over her possession. Catarina Pina, the most beautiful girl in Caligari, after living as a child with her brother in America for fifteen years, returned home to become the object of adoring admiration of all the young men of the community.

Friends Become Enemies.

Two of them were particularly smitten by her charms, so that, whereas they had been the closest of friends, they soon became through jealous rivalry the bitterest of enemies and there were frequent and violent quarrels between them, in which the too ready Sardinian knife sometimes

The Capital Prize Was Won by a Rich Land Owner.

played a part. The girl deprecated this strife, fearing its fatal results, though she was quite unable to stop

it and was unable to make up her mind which of the suitors to choose—perhaps was fearful of the tragic result of such a choice.

So in time, weary of the strife between the two, she signified to a relative that she would like to bring about a decision between them through the means of chance, in a lottery.

Open to All.

The contestants were not, however, to be merely the two quarrelling youths, but the competition was to be open to all, and Catarina engaged to wed the winner, whoever he might be, provided he was in good health, in ample circumstances and not more than forty years old. The two rivals, of course, participated in the lottery, but neither was successful. Their tickets drew blanks.

The capital prize was won by a rich land owner named Contini, whose wealth enabled him to purchase enough tickets in the lottery to throw the chances of winning greatly in his favor. It is understood that the two pugacious rivals have found, in their common disappointment, a way to restore their former friendship.

Fake Missing Son's Wire Brings Arrest

New York—These are days of real progress, when boys earn as much or more than men did a decade ago, a fact which Joseph Russo, professional prodigal son, failed to take into account when he wired to Arthur Erna of Akron, Ohio:

"Am in New York. Work scarce. Send \$20 to Western Union office. Your son, Louis."

So, instead of finding the fatted calf waiting at the Western Union, Joe found several policemen. The gentlemen escorted Joe, nineteen, a fiction-reading chauffeur, to Hoboken, to Tombs court, charged with forgery. Mr. Erna's son had turned up, and thus enabled the police to turn the tables on Russo, Russo, reading personal ads for missing relatives in magazines, is said to have mulcted a dozen persons as their "missing son." He pleaded not guilty.

Gravediggers Battle in Cemetery Over Girl

Mexico City—Two gravediggers, rivals in a love affair, fought a pistol and knife duel in Dolores cemetery in the presence of the girl whose love both claimed, when she came to the cemetery to place flowers on the graves of relatives.

The gravediggers first emptied their pistols at each other, but did no serious damage, then drew their knives and trampled over the graves slashing desperately until the girl's screams attracted the police. Both men were badly cut and were sent to a hospital.

TOLD IN JEST

True to Form

Instructor—Swing at it—swing and hit it. Now, chop like a butcher.
Gutter—But that's what I am.

Receipt for Honesty

Worried Parent—What shall I take for kleptomaniac?
Lawyer—Nothing.

Cleaned Up

Back Customer—You say the cashier is on a vacation. With pay?
Teller—Yes, and mine, too.

Question Premature

"Do you believe in the survival of the fittest?"
"Only in the event of my own success."

Limited Means

West—"We'll get the best car we can afford." Mrs. West—"I won't be seen in one of those."

Very Practical

"Is there anything in this affair of yours with the heiress?" "Certainly. There's millions in it, I hope."

The Mean Thing!

Mrs. Small—"I believe I shall have to give up bridge." Mrs. Sharp—"Really? Isn't the game worth the scandal?"

Do His Looks Betray Him?

Mrs. Hoyle—"Your husband is a bright-looking man." Mrs. Doyle—"Yes, that's the way he looks."

Not Himself

"Didn't I hear Jones tell that officer his name was Brown?" "Perhaps so. I heard him say he wasn't himself today."

A Marked Man

Madge—"Was that your intended I saw you motoring with?" Marie—"Yes, but he hasn't caught on yet."

C. of C. Wants Big Cut Tax

Number of Commerce of United States believes that Tax Reduction of 400 Million Dollars is Both Sound and Practicable.

Washington, Nov. 30 (AP).—In spite of criticism from the White House, the Chamber of Commerce of the United States stands firm in its belief that tax reduction totalling \$400,000,000 is both sound and practicable.

With the house ways and means committee in recess, a statement from that organization reiterating its position and replying to its critics in a clear field today in the capital's tax discussions.

Not only is it the right of business organizations to express their views on taxation, the national chamber said, but it is their duty as well, particularly when their opinions have been reached through expert study.

There is no direct reference to President Coolidge, who it was said last week at the White House, was highly displeased with the chamber for its persistence in advocating a \$400,000,000 tax slash in the face of administration's insistence that the prospective reduction be limited to \$225,000,000.

On Mr. Coolidge's behalf, it was said as well, that he considered the chamber's attitude on department expenditures inconsistent with its tax reduction position.

The chamber, however, asserted that it was committed to a program of national expenditures planned and controlled by the budget and provision by law for annual reduction of the national debt. It opposed the statement said, all measures of taxation producing revenue in excess of these requirements.

Surely His Unlucky Day

Ernest Wespeler of South street, Holyoke, Mass., is the victim of a peculiar accident, all because he decided to put a tire on a high shelf of his garage, says the Boston Globe. When he tossed the tire to the shelf he knocked off a heavy object which struck him in the mouth breaking several teeth. He fell, and in doing so, again fared the shelf, this time causing the tire to topple and fracture his right leg.

NEW PALTZ

New Palitz, Nov. 30.—Those who spent Thanksgiving Day with Mr. and Mrs. Frank Guizar and daughter, Blanche, were Mr. and Mrs. Eli Mackey and family, Mr. and Mrs. Philip McCord and family from Wallkill, Mr. and Mrs. Bert Malcolm and son and Mr. and Mrs. Ferris Malcolm and daughter of Gardiner.

Mr. and Mrs. George M. Van Vliet of Newburgh are spending a few days with Mr. and Mrs. Webb Kniffin and daughter.

Mr. and Mrs. Abram P. LeFevre spent the week end in New York city.

William Decker is driving a team for A. P. LeFevre during his brother's illness.

Tuesday afternoon the Reformed Church parlors were the scene of a party given to the primary and bell glimmers' Sunday school classes, with the teachers and Mr. and Mrs. Miner as the reception committee. Many games were played and there were refreshments of creamed chicken, ice cream and other dainties. Each little guest was presented with a toy balloon at the time of departure for home.

In the auditorium on Monday evening at the Normal, Dr. Stephenson delighted a large audience of townspeople and students with a most interesting lecture on "The Far North."

Miss Bensley of the art department of the Normal is spending some time in Middletown, N. Y.

Miss Emily Coe entertained a few friends at five hundred on Tuesday evening.

Miss Lucile Coddington spent Thanksgiving with her parents, Dr. and Mrs. Fred Coddington.

Mr. and Mrs. Edgar Rider and family spent Thanksgiving with their daughter in Utica.

William D. Skahan has moved into the Harvey Clark house on South Chestnut street.

Mrs. Fred DeWitt of Passaic spent the week end with her sister, Mrs. Ira Steen.

Philip E. DuBois spent Thursday with Miss Cora DuBois.

Louis DuBois was home from Blair Hall for the Thanksgiving vacation.

Mrs. Ralph Gardner is ill at her home on Main street.

Dr. and Mrs. Guy Bayley Dolson of California are rejoicing over the arrival of a daughter, Marguerite May, on November 11. Mrs. Dolson was formerly Miss Marguerite Allhusen of New Palitz.

Mr. and Mrs. Eber Rhodes of Modena spent Sunday afternoon in town.

Dr. and Mrs. Clarence Woolsey and Lewis Woolsey are spending a few days with Mr. and Mrs. Frank Waldron in Peekskill and in New York city.

Mr. and Mrs. Bruyn Hasbrouck entertained Mr. and Mrs. Martin Hasbrouck, Ralph Hasbrouck and Mr. and Mrs. Harold Van Ness of Paterson, New Jersey, and Oscar Etting of New York city on Thanksgiving Day.

Mr. and Mrs. William Schoonmaker spent Sunday with Mr. and Mrs. Edward Schoonmaker at Plu-march.

John Corwin has bought a new Chevrolet sedan of the Sulliff Corporation of Kingston.

Mrs. Webb Kniffin and daughter, Elaine, spent Thanksgiving and the week end in Newburgh.

Mr. and Mrs. Charles W. Donaldson of Newark, New Jersey, and Mr. and Mrs. Stanley Tracey of Essex Falls, New Jersey, called on old friends in New Palitz on Tuesday.

Bertram Morris of Yonkers is spending the week end at the home of Dr. and Mrs. Fred Coddington.

Mr. and Mrs. Bruyn Deyo visited Mr. and Mrs. Eli Auchmoody of Kyserike over the week end.

Mr. and Mrs. A. A. Poucher entertained Mr. and Mrs. E. Rider and family at dinner last Wednesday.

Edward Barnes spent the week end with his parents, Mr. and Mrs. Irving C. Barnes.

The sale of Japanese goods took place Wednesday afternoon in the art room of the Normal. The place was attractively decorated and Japanese girls served tea and sold articles. Christmas cards tinted for you while you waited. The air was heavy with the odor of incense, tea and cake. An electric radio furnished music for the entertainment. The hostesses were members of the Arts and Crafts Club, the instructors of the art department presided at the tea table.

Miss Virginia Baxter, Miss Grace Lockwood, Miss Catherine Cumisky, normal students, spent the week end at their homes in Marlborough.

Mr. and Mrs. Irving Kortright, Mrs. James O. LeFevre and Miss Elizabeth LeFevre motored to Hurley Tuesday evening and saw with much enjoyment the play "The Rector" which the Hurley Farm and Home Bureau are entering in the dramatic contest.

Mr. and Mrs. C. C. Ward and daughter, Janet, and Mrs. Ernest Tamney motored to Port Allegany, Penn., Wednesday to spend Thanksgiving with Mr. and Mrs. Buckley.

Mrs. George Young of Mohonk has moved to New Palitz for the winter and will occupy Miss Gage's house on Church street.

Mr. and Mrs. Norval Yeaple and son, William, of New York are spending some time with Mr. Yeaple's mother, Mrs. A. Yeaple.

New Palitz, Nov. 30.—Dr. Flately spent Thanksgiving with her mother in New Palitz.

Caroline Stahl, who is a sophomore at Smith College, was home for the week end.

Miss Helen Curtis and Mr. Cooper of Dutchess county spent Sunday with Mr. and Mrs. Jacob Hart.

Miss Emily Coe entertained a few friends at five hundred on Tuesday evening.

Dr. J. L. Becker and family, formerly of New Palitz, were in town on Sunday and attended services at the Methodist Church.

Mr. and Mrs. Harold Allen of Flushing, Long Island, are spending a few days with Mrs. Frank Allen.

L. M. Borden and son, Gail, of

New York city, were in town on Thanksgiving Day and called on Etting Harp and family.

Mr. and Mrs. Herbert Ives of Danbury, Connecticut, motored to New Palitz on Sunday and spent the day with Mr. and Mrs. A. A. Poucher.

Mrs. Emily Hasbrouck and Miss Charlotte Reece entertained six of their friends with bridge and fire dinner at Miss Reece's home on Saturday.

Carl Sandburg, author of the Life of Abraham Lincoln, accompanied Alfred Harcourt on a recent trip to our village to call on Mrs. Charles W. Harcourt.

Y. M. W. CLUB TO MEET AT Y. W. C. A. THURSDAY

On Thursday afternoon at 3 o'clock the first meeting of the Young Married Women's Club will be held at the Y. W. C. A. on Henry street. It is hoped that a large number will be present as organization plans will be set forth and various program suggestions discussed. The organization committee consists of the following persons: Mrs. C. Ray Everett, Mrs. Charles Arnold, Mrs. Parker Brinier, Mrs. Alexander Campbell, Mrs. R. F. Chidsey, Mrs. C. J. Helmsman, Mrs. William K. Mills, Mrs. John H. Sterley. A short musical program will be given at the close of the business meeting and tea will be served. All young married women of the city will be welcome.

Will Come Right in End

Let us fear the worst but work with faith; the best will always take care of itself.—Victor Hugo.

LAKE KATRINE

Lake Katrine, Nov. 30.—The Home Department will meet Wednesday afternoon at 2:30 o'clock with Mrs. Pratt Boke. There will be plans made at this time for making up Christmas boxes.

William Everett is spending a few days in Pittstown, N. J., and with his daughter, Mrs. William Lux, of Richfield Park.

The Camp Fire Girls are happily employed making scrap books and last week provided a Thanksgiving dinner.

The Neighborhood Card Club enjoyed progressive ginocle at the home of Mr. and Mrs. Copeland Gates last Saturday evening. Mrs. P. Lachman won first prize for ladies. Billy Schumacher, first for gentlemen, Mr. Shaw and Mrs. Weynatt the consolation prizes.

Supervisor and Mrs. Hugh Ferguson spent Thanksgiving Day in Newburgh with friends from New York city.

Mrs. Teresa Marz, who had a serious operation at the Kingston Hospital, is improving.

Fred Frear and Ralph Kieffer of Englewood, N. J., were guests of Mr. and Mrs. David Kieffer last week end.

Mrs. Alfred Frear is seriously ill. Mr. and Mrs. Muller and son of Astoria, L. I., Mr. and Mrs. Weeks and daughters of Newburgh, Mr. and Mrs. James Pfeiffer were Thanksgiving guests of Alfred Montavanni.

Mr. and Mrs. William Duggan and son and Mrs. Dorothy Patterson of New York city were guests of Mr. and Mrs. John Wallace last week.

The regular meeting of Pomona Grange will be held at the Grange Hall Friday evening of this week.

The dinner will be in charge of the December committee. A chairman, Mrs. Anna Kieker, Mr. Kieker, Mr. and Mrs. Harry Davis, Mrs. Mildred Ducker, Mr. and Mrs. Harold Grier, and the Messrs. Plante and Elsie Shipman.

Louis Dancer of New York city spent the holiday with his parents, Mr. and Mrs. D. Weynatt.

Deliver me from taking that girl to a show again. The last time I footed the bill I had to foot it home.

Saturday and Holiday Matinee Same as Night.

LAST NIGHT on the RADIO

Fading of local high power stations and growing static that began about 8 o'clock rather spoiled what might otherwise have been a wonderful evening. The static had that regular beat that sometimes makes one suspect it is man-made, but in this instance it was unquestionably real.

Perversity of Nature

We should be the last man in the world to dispute the great facts of science, and it may be true that the common homely old travel six miles a day, but what puzzles us is how the eminent scientist, especially if he has a bad spot, as most eminent scientists have, got him to do it.

SARDINIAN GIRL ENTERS LOTTERY TO STOP STRIFE

Rivals for Hand of Maid From America Lose When She Raffles Self.

Caligari.—In the Sardinian country town of Caligari there was recently presented the extraordinary spectacle, hitherto entirely reserved for melodramatic performances on the stage, of the disposal of a young and beautiful maiden by public lottery, thus ending a quarter of a year long over her possession. Caterina Pina, the most beautiful girl in Caligari, after living as a child with her brother in America for fifteen years, returned home to become the object of adoring admiration of all the young men of the community.

Friends Become Enemies.

Two of them were particularly suited by her charms, so that, whereas they had been the closest of friends, they soon became through jealous rivalry the bitterest of enemies and were more frequent and violent quarrels between them, in which the too ready Sardinian knife sometimes

The Capital Prize Was Won by a Rich Land Owner.

played a part. The girl deprecated this strife, fearing its fatal results, though she was quite unable to stop

It was not able to make up her mind which of the suitors to choose—perhaps was fearful of the tragic result of such a choice.

So in time, weary of the strife between the two, she signified to a relative that she would like to bring about a decision between them through the means of chance, in a lottery.

Open to All.

The contestants were not, however, to be merely the two quarrelling youths, but the competition was to be open to all, and Caterina arranged to wed the winner, whoever he might be, provided he was to good health, in simple circumstances and not more than forty years old. The two rivals, of course, participated in the lottery, but neither was successful. Their tickets drew blanks.

The capital prize was won by a rich land owner named Contal, whose wealth enabled him to purchase enough tickets in the lottery to throw the chances of winning greatly in his favor. It is understood that the two pugnacious rivals have found, in their common disappointment, a way to restore their former friendship.

Fake Missing Son's Wire Brings Arrest

New York.—These are days of real progress, when boys earn as much or more than men did a decade ago, a fact which Joseph Russo, professional prodigal son, failed to take into account when he wired to Arthur Erro of Akron, Ohio:

"Am In New York. Work scarce. Send \$20 to Western Union office. Your son, Louis."

So, instead of finding the fatted calf waiting at the Western Union, Joe found several policemen. The gentlemen escorted Joe, nineteen, a fiction-reading chauffeur, to Hoboken, to Tombs court, charged with forgery. Mr. Erro's son had turned up, and thus enabled the police to turn the tables on Russo. Russo, reading personal ads for missing relatives in magazines, is said to have mulcted a dozen persons as their "missing son." He pleaded not guilty.

Gravediggers Battle in Cemetery Over Girl

Mexico City.—Two gravediggers, rivals in a love affair, fought a pistol and knife duel in Dolores cemetery in the presence of the girl whose love both claimed, when she came to the cemetery to place flowers on the graves of relatives.

The gravediggers first emptied their pistols at each other, but did no serious damage, then drew their knives and trampled over the graves slashing desperately until the girl's screams attracted the police. Both men were badly cut and were sent to a hospital.

TOLD IN JEST

True to Form

Instructor—Swing at it—swing and hit it. Don't chop like a butcher. Golfer—But that's what I am.

Receipt for Honesty

Worried Parent—What shall I take for kleptomaniac? Doctor—Nothing.

Cleaned Up

Bank Customer—You say the cashier is on a vacation. With pay? Teller—Yes, and mine, too.

Question Premature

"Do you believe in the survival of the fittest?" "Only in the event of my own success."

Limited Means

West—"We'll get the best car we can afford." Mrs. West—"I won't be seen in one of those."

Very Practical

"Is there anything in this affair of yours with the heiress?" "Certainly. There's millions in it, I hope."

The Mean Thing!

Mrs. Small—"I believe I shall have to give up bridge." Mrs. Sharp—"Really? Isn't the game worth the scandal?"

Do His Looks Belie Him?

Mrs. Doyle—"Your husband is a bright-looking man." Mrs. Doyle—"Yes, that's the way he looks."

Not Himself

"Didn't I hear Jones tell that officer his name was Brown?" "Perhaps so. I heard him say he wasn't himself today."

A Marked Man

Madge—"Was that your intended I saw you motoring with?" Marie—"Yes, but he hasn't caught on yet."

C. of C. Wants Big Cut Tax

Members of Commerce of United States believe that Tax Reduction of 400 Million Dollars is both sound and practicable.

Kingston, Nov. 30 (AP).—In a resolution passed at the White House, the Chamber of Commerce of the United States stands firm in its belief that tax reduction totalling \$400,000,000 is both sound and practicable.

With the house ways and means committee in recess, a statement was issued by the organization reiterating its position and replying to its critics and a clear field today in the capital tax discussions.

Not only is it the right of business organizations to express their views on taxation, the national chamber said, but it is their duty as well, particularly when their opinions have been reached through expert study, all discussion and referendum vote.

There is no direct reference to President Coolidge, who it was said last week at the White House, was highly displeased with the chamber's insistence that the tax reduction be limited to \$250,000,000. On Mr. Coolidge's behalf, it was said as well, that he considered the chamber's attitude on department expenditures inconsistent with its tax reduction position.

The chamber, however, asserted that it was committed to a program of national expenditures planned and controlled by the budget and provision for law for annual reduction of the national debt. It opposed, the statement said, all measures of taxation producing revenue in excess of these requirements.

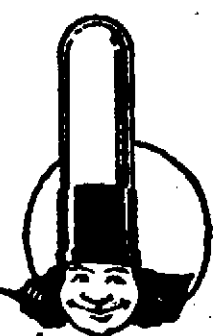

Surely His Unlucky Day

Ernest Wespeler of South street, Holyoke, Mass., is the victim of a peculiar accident, all because he decided to put a tire on a high shelf of his garage, says the Boston Globe. When he tossed the tire to the shelf he knocked off a heavy object which struck him in the mouth breaking several teeth. He fell, and in doing so, again jarred the shelf, this time causing the tire to topple and fracture his right leg.

NEW PALTZ

New Paltz, Nov. 30.—Those who spent Thanksgiving Day with Mr. and Mrs. Frank Colman and daughter, Blanche, were Mr. and Mrs. Elmer Mackey and family, Mr. and Mrs. Philip McCord and family from Wallkill, Mr. and Mrs. Bert Malcolm and son and Mr. and Mrs. Ferris Malcolm and daughter of Gardiner.

Mr. and Mrs. George M. Van Vleet of Newburgh are spending a few days with Mr. and Mrs. Webb Kniffin and daughter.

Mr. and Mrs. Abram P. LeFevre spent the week end in New York city.

William Decker is driving a team for A. P. LeFevre during his brother's illness.

Tuesday afternoon the Reformed Church parlors were the scene of a party given to the primary and beginners' Sunday school classes, with the teachers and Mr. and Mrs. Miner as the reception committee. Many games were played and there were refreshments of creamed chicken, ice cream and other dainties. Each little guest was presented with a toy balloon at the time of departure for home.

In the auditorium on Monday evening at the Normal, Dr. Stephenson delivered a large audience of townspeople and students with the most interesting lecture on "The New North."

Miss Bensley of the art department of the Normal is spending some time in Middletown, N. Y.

Miss Emily Coe entertained a few friends at five hundred on Tuesday evening.

Miss Lucile Coddington spent Thanksgiving with her parents, Dr. and Mrs. Fred Coddington.

Mr. and Mrs. Edgar Rider and family spent Thanksgiving with their daughter in Ulster.

William D. Skahan has moved into the Harvey Clark house on South Chestnut street.

Mrs. Fred DeWitt of Passaic spent the week end with her sister, Mrs. Ira Steen.

Philip E. DuBois spent Thursday with Miss Cora DuBois.

Louis DuBois was home from Blair Hall for the Thanksgiving vacation.

Mrs. Ralph Gardner is ill at her home on Main street.

Dr. and Mrs. Guy Dayley Dolson of California are rejoicing over the arrival of a daughter, Marguerite May, on November 11. Mrs. Dolson was formerly Miss Marguerite Allhusen of New Paltz.

Mr. and Mrs. Eber Rhodes of Modena spent Sunday afternoon in town.

Dr. and Mrs. Clarence Woolsey and Lewis Woolsey are spending a few days with Mr. and Mrs. Frank Waldron in Peekskill and in New York city.

Mr. and Mrs. Bruyn Hasbrouck entertained Mr. and Mrs. Martin Hasbrouck, Ralph Hasbrouck and Mr. and Mrs. Harold Van Ness of Paterson, New Jersey, and Oscar Elting of New York city on Thanksgiving Day.

Mr. and Mrs. William Schoonmaker spent Sunday with Mr. and Mrs. Edward Schoonmaker at Pluatare.

John Corwin has bought a new Chevrolet sedan of the Suttill Corporation of Kingston.

Mrs. Webb Kniffin and daughter, Elaine, spent Thanksgiving and the week end in Newburgh.

Mr. and Mrs. Charles W. Donaldson of Newark, New Jersey, and Mr. and Mrs. Stanley Tracer of Essex Falls, New Jersey, called on old friends in New Paltz on Tuesday.

Bertram Morris of Yonkers is spending the week end at the home of Dr. and Mrs. Fred Coddington.

Mr. and Mrs. Bruyn Devo visited Mr. and Mrs. E. H. Auchmoody of Kyserike over the week end.

Mr. and Mrs. A. A. Pouch entertained Mr. and Mrs. E. Rider and family at dinner last Wednesday.

Edward Barnes spent the week end with his parents, Mr. and Mrs. Irving C. Barnes.

The sale of Japanese goods took place Wednesday afternoon in the art room of the Normal. The place was attractively decorated and Japanese girls served tea and sold articles, Christmas cards tinted for you while you waited. The air was heavy with the odor of incense, tea and cake. An electric radio furnished music for the entertainment. The hostesses were members of the Arts and Crafts Club, the instructors of the art department presided at the tea table.

Miss Virginia Baxter, Miss Grace Lockwood, Miss Catherine Cumisky, normal students, spent the week end at their homes in Marlborough.

New York city, were in town on Thanksgiving Day and called on Elting Harp and family.

Mr. and Mrs. Herbert lives of Danbury, Connecticut, motored to New Paltz on Sunday and spent the day with Mr. and Mrs. A. A. Pouch.

Mrs. Emily Hasbrouck and Miss Charlotte Reeve entertained six of their friends with bridge and refreshments at Miss Reeve's home on Saturday.

Carl Sandburgh, author of the Life of Abraham Lincoln, accompanied Alfred Harcourt on a recent trip to our village to call on Mrs. Charles W. Harcourt.

Y. M. W. CLUB TO MEET AT Y. W. C. A. THURSDAY

On Thursday afternoon at 3 o'clock the first meeting of the Young Married Women's Club will be held at the Y. W. C. A. on Henry street. It is hoped that a large number will be present as organization plans will be set forth and various program suggestions discussed. The organization committee consists of the following persons: Mrs. C. Ray Everett, Mrs. Charles Arnold, Mrs. Parker Brinley, Mrs. Alexander Campbell, Mrs. R. F. Chidsey, Mrs. C. J. Holleman, Mrs. William C. Mills, Mrs. John B. Storey. A short musical program will be given at the close of the business meeting and tea will be served. All young married women of the city will be welcome.

Will Come Right in End
Let us fear the worst but work with faith; the best will always take care of itself.—Victor Hugo.

LAKE KATRINE.
Lake Katrine, Nov. 30.—The Home Department will meet Wednesday afternoon at 7:30 o'clock with Mrs. Pratt Hove. There will be plans made at this time for making up Christmas boxes.

William Everett is spending a few days in Poughkeepsie, N. Y., and with his daughter, Mrs. William Lux, of Richmond Park.

The Camp Fire girls are happily employed making scrap books and last week provided a Thanksgiving dinner.

The Neighborhood Card Club enjoyed progressive ginocle at the home of Mr. and Mrs. Copeland Gates last Saturday evening. Mrs. P. Lachman won first prize for ladies. Billy Shumacher, first for gentlemen, Mr. Shaw and Mrs. Weyant the consolation prizes.

Superior and Mrs. Hugh Ferguson spent Thanksgiving Day in Newburgh with friends from New York city.

Mrs. Teresa Marr, who had a sort of operation at the Kingston Hospital, is improving.

Frederic and Ralph Kieffer of Englewood, N. J., were guests of Mr. and Mrs. David Kieffer last week end.

Mrs. Alfred Frear is seriously ill. Mr. and Mrs. Muller and son of Astoria, L. I., Mr. and Mrs. Weeks and daughter of Newburgh, Mr. and Mrs. James Proffier were Thanksgiving guests of Alfred Mantavanni.

Mr. and Mrs. William Duggan and son and Mrs. Dorothy Patterson of New York city were guests of Mr. and Mrs. John Wallace last week.

The regular meeting of the Pomona Grange will be held at the Grange Hall Friday evening of this week.

The dinner will be held at the home of Mrs. Anna Hove, Mr. Hove, Mr. and Mrs. Harry Hove, Mrs. Mildred Hove, Mr. and Mrs. Harold Hove, and the Hove family at 1150 Elm street.

Henry Dams, of New York city, spent the day with his parents, Mr. and Mrs. H. Weyant.

Deliver me from taking that path to a show again. The last time I fooled the hell out of it home.

Cat and the Canary

Events Around The Empire State

(By The Associated Press)

Rochester—Girls in Rochester high schools have gone back to the horse and bicycle as a means of exercise. One hundred and fifty of them ride in Genesee Valley Park every week while eighty of them are cycling.

Rochester—The "human ostrich" who sticks his face in his coat collar during cold weather is the bane of water motorists, according to the safety council of the Chamber of Commerce. Drivers were warned to be on the alert and thus avoid accidents.

Canastota—John Douchard of this village has purchased a lumberyard for \$7. The lumberyard consists of an old Erie canal boat, which for

years had lain rotting on the banks of the abandoned waterway near here. Douchard, being of a practical turn of mind, proposes to use what lumber he can find it for several houses he intends to build, and to cut up the remainder for firewood. The boat when new cost about \$1,000.

Syracuse—Memories of the days when Syracuse really was the "salt city" were recalled here recently when workmen engaged in excavating for the foundation of a sewer pump-house on the north side uncovered a forgotten salt well. Machinery placed in the excavation to drain it of water became so clogged with brine that another location for the house had to be chosen.

Rochester—A "Boys and Girls" dinner will be held on December 14 under the auspices of the local Rotary club. Heads of industrial, banking and manufacturing concerns where a number of boys in their employ hence the name.

Stieler Restaurant Closes.

Mrs. Helen Stieler, who for some time has conducted a restaurant at 244 Clinton avenue, will close same this evening. This action will be taken because the building will be altered into an automobile display room by Adelbert and Leon Chambers, owners of the property and of the Stuyvesant Garage adjoining. Mrs. Stieler will continue to reside in the apartment on the second floor until she can find a suitable location in the near vicinity to open a new restaurant.

EXCLUDE POLITICS IN "DRY" APPOINTMENTS

It is expected that the first of January will find most of the administrative posts under the bureau of prohibition filled by appointees selected through competitive examination tests.

The delay in completing the examinations and certifying eligibles is due to the failure of Congress to provide funds for this huge examination task.

The commission will take every precaution to keep politics out of these appointments. Prohibition Commissioner Dorian and the members of the Civil Service Commission are of one mind in the belief that political chief hindrances to prohibition enforcement.

Selection for appointment must be made from the names certified for a particular job; the appointing officer will not be permitted to pass over a certification of three names and go further down the list for the name of some one whose appointment is urged or desired.

The deficiency bill, which failed to pass in the last Congress because of a filibuster, is slated for consideration immediately after the convening of the new Congress in December. It will include provision for funds for the Civil Service Commission's examination work for the bureau of prohibition. When these funds become available the commission will be in a position to undertake the final processes of the examinations for positions below the administrative grades.

Jews Need Help A Little Longer

Jews of Eastern Europe Soon Will be Self-Supporting, Say American Leaders of Relief Organization. Who Describe Conditions There.

Syracuse, Nov. 30.—(Special.)—What the Jews of New York state are doing to rehabilitate their co-religionists of Eastern Europe and the results already accomplished, will be revealed here December 4 at the state-wide Constructive Relief Conference, which will include a delegation of representative Jews from Kingston.

The situation among the Jews of Russia, Poland, Rumania and other Eastern European countries will be analyzed by Jewish leaders who have recently returned from Europe where they made a detailed study of the situation. Their reports indicate that at last the work of the American Jewish Joint Distribution Committee, which is carried on with funds raised in the United Jewish Campaign for \$25,000,000 is beginning to show splendid results.

Bernard B. Givens, state chairman of the United Jewish Campaign, announced at state headquarters here today, that on the basis of preliminary reports of investigators who have made a study of the problem in the Slavic countries, the Jews in those states will in the near future cease to be dependent upon the charity of their American co-religionists and will become permanently self-supporting.

Situation in Constructive Period. Jewish leaders, among them David A. Brown, national chairman of the United Jewish Campaign; Felix Warburg, New York banker; Louis Marshall, noted jurist; Julius Rosenwald, famed Chicago philanthropist, and others, agree that after many years of sacrifice and effort, the relief situation at last is well in the constructive period and all that is needed to bring about complete rehabilitation of the Jews who have suffered greatly from political and economic upheavals as a result of the war, is to continue the present constructive relief measures effectively a little longer to insure success.

Particularly encouraging are the reports coming out of Russia where the Jewish people were ruined economically by the revolution. Scores of thousands of Jews in Russia, who had been placed in a precarious position as a result of the drastic change in the economic system of that country, are being settled on land, and according to reports the newly settled farmers are achieving notable success in their agricultural pursuits.

Leaders of American Jewry, among them Felix Warburg, who recently returned from Russia where they investigated the colonization movement, brought back inspiring reports of what they have seen of the new Jewish life in the agricultural colonies in the Crimea, Cherson and Kriyov Rog districts. These investigators state that the agricultural settlements are producing a new type of Russian Jew, rugged, self-reliant and industrious.

Lead Life of Pioneers. Those who have seen the Jews in the scores of newly established villages do not deny that the life of the new settlers is the life of pioneers, full of hardships and toil. But they assert that the new farmers are establishing a new life for themselves on the plains of the Crimea and that their condition is improving every year.

The chief problem according to the leaders, like Julius Rosenwald, Felix Warburg, Mr. Marshall, Mr. Brown, and others, who have themselves given a fortune to the relief work, is to continue the assistance given the colonization movement a little longer. They say the rehabilitation work has reached a stage from which with a little more effort it can be carried to a successful conclusion, but if the effort were to be relaxed at present a good deal of what had been accomplished with a tremendous sacrifice would be lost and thousands of Jews would slip back into a condition of despair and hopelessness.

It is to safeguard the accomplishments already achieved that is the prime purpose of the Constructive Relief Conference being called in Syracuse for December 4.

MISS GOLD HONORED AT ELMIRA COLLEGE

Miss Martha Gold, daughter of Mr. and Mrs. Gold of 178 Green street, was recently honored at Elmira College by being chosen to take part in Freshman Thespis, the first dramatic activity of the Freshmen. The program was given on Saturday, November 26, and it consisted of four one-act plays "Op-o-me Thumb, Behind a Watteau Picture, An Indian Giver, and Mrs. Pat and the Law. Miss Gold played the part of Rose in "Op-o-me Thumb, which was the prize-winning play. She is also the secretary of the Freshman class. Freshman Thespis at Elmira College is an attempt to find the dramatic talent of the Freshman class. It is the first big Freshman event of the year. Thespis, the dramatic society, is one of the oldest organizations of the college.

A Card Party. The Auxiliary of the Jewish Community Center will hold a progressive bridge and pinocchio card party in the Community Center Hall Monday evening, December 5. Prizes will be awarded and refreshments served. Games will start at 8:15. The public is cordially invited.

Speaking of golf, we have noticed that many a diamond in the rough turns out to be a flop on the green.

English as She Spoke.
Do we laugh in our sleeve
'Cause the funny bone's there?
When we talk through our hat,
Does the heat sink our hair?
Did a man ever do it
When we say, "Chase yourself?"
And if he attempted,
Where'd he begin on himself?
When you're tickled to death,
Do you ever stay dead?
How can man crack a joke
On the tongue in his head?
And when your voice drops,
Are your words always broken?
Or is it just English
As she's always been spoken?
Does a fellow leave town
'Cause he's others to make?
When he loses his head,
Isn't the irony of fate?
Is a woman a peach
'Cause the blush is skin deep?
Why call man a lobster
When he sticks like a leech?
When you say man is nutty,
Can you tell by his bark?
When he's out with the owls,
Don't we call him a lark?
When an Irishman's dead,
Why make him awake?
To make hay in the sun,
Does that mean you're a rake?
Is a man full of prunes
When he's handed a lemon?
You say, "Pretty as—," well
You mean angels of heaven.
Our language is full
Of paradox wealth—
When man drinks like a fish
He makes a hog of himself.

Customer (to cigar dealer, after lighting up a five cent one): Well, where's my corned beef?

A tooth may be false to others, but it is always true to the fellow who owns it.

Probably True.
Office Boy—Your wife telephoned she'd like to see you about five, sir.
Boss—Did she say whether it was about five dollars or five o'clock?

Hay fever is a disease the more you do for it the worse it gets.

If only people would rest their tongues on Sunday, also.

World's Champion Car

25,000 miles in less than 23,000 minutes!

AT Atlantic City Speedway between Oct. 18 and Nov. 4, three strictly stock Commanders each went 25,000 miles in less than 23,000 minutes—total elapsed time. Two roadsters each completed the 25,000 miles in 22,968 consecutive minutes—a Sedan in 24,200 minutes. Nothing on earth ever traveled so far so fast!

The American Automobile Association certified to the time and disassembled the cars following the run to establish their status as strictly stock models.

The Studebaker Commander now holds all official endurance and speed records for stock cars regardless of power or price!

What these records mean to you
This great achievement proves that it is now possible to purchase a truly great automobile at a moderate One-Price price. It proves that the Commander, because of its super-abundant power, will perform for many years, eagerly, easily, smoothly and with no labor or effort, any tasks placed on it.

Four basic elements of Studebaker superiority are proved by these world records:

1 SOUND DESIGN—Chief Engineer D. G. Ross, Research Engineer W. S. James and their able associates—backed by Studebaker's vast resources in laboratories and 800-acre Proving Ground—have created a car so superior as to merit its reputation as "the greatest achievement of post-war automotive engineering."

2 PRECISION MANUFACTURE—Studebaker cars are produced in plants equipped for the finest of precision manufacture—cars so accurately built you can drive 40 miles an hour the first day you own one.

3 SKILLED WORKMANSHIP—Studebaker cars are built by the most skilled and painstaking craftsmen under most expert supervision.

4 QUALITY MATERIALS—Only the highest quality of alloy steels and all other materials enter into the manufacture of Studebaker cars.

Such value as The Commander—such performance—such championship ability cannot be overlooked by the man who desires a full money's worth for his motor car dollars!

Specifications Of New Ford Car

Usual Speed and Acceleration
Among Outstanding Features—Six
Models of the New Car.

After six months of "talking" nothing but sawing wood," Henry Ford today announced the specifications of the new Ford car which succeeds his famous Model T. A bare listing of these specifications presents a picture of an automobile that in performance, appearance and mechanical features has heretofore been associated with a considerably higher price class.

Usual speed and acceleration are among the outstanding features of the new car. It is announced as being able to make 55 to 60 miles an hour, with ease. In recent tests it has made even more without difficulty. What is more important, it is stated that when traveling at such speeds, it holds the road easily, and with comfort to driver and passengers. It is also stated with equal positiveness, however, that it performs in an equally spectacular manner on bad roads. In its design, Mr. Ford has held to his original idea of a car which can meet all conditions and types of roads.

Appreciating the constant increasing importance of acceleration, the Ford Motor Company has given a great deal of study to this feature of the new car. In high gear tests with two passengers in a Tudor Sedan it has shown an acceleration of from 5 to 25 miles an hour in 3 1/2 seconds.

Four Wheel Brakes.
The new Ford car also introduces a new type of four wheel brakes. An exclusive Ford development, they are of the mechanical, shoe-expanding type, and are self-centering. The brake pedal and hand brake each operates all four brakes. It is stated that this is the most reliable and simplest type of four-wheel brake, and also the easiest to adjust, all adjustments being made from the outside without removing any parts.

An engine that is practically vibrationless develops 40 horsepower at 2,200 revolutions per minute. This low revolution speed in ratio to the high horsepower is illustrative of the unusual efficiency of the engine. Also, it means longer life, the lower engine speed insuring less wear on engine parts. The low revolution is also a substantial factor in lessening vibration. The bore is 3 3/8 inches, stroke 4 1/2 inches. The unusually large crankshaft, which is both statically and dynamically balanced, weighs 28 pounds. This balancing, combined with the lightness of aluminum alloy pistons, further combine to reduce vibration and increase riding and driving comfort and safety.

In addition to freedom from vibration, it is announced that the car is unusually quiet, a great deal of attention having been paid to this feature by the Ford engineers. In the engine, the timing gears are made of bakelite fabric, which is much quieter than metal. The camshaft on the camshaft have been so designed as to prevent valve clicking.

Coachwork Distinctive.
The coachwork of the car is as distinctive as its performance. There is a noticeable European touch in line and contour. It is not only designed for exterior beauty, but has as well the interior roominess, convenience and luxurious appointments to be found in much higher priced automobiles. On an instrument board of satin finished nickel are mounted the speedometer, gasoline gauge, ammeter and ignition lock, with a dash light in the center. The new military-type sun visor, with crown roof and round corners, are features of the closed models. Unusually narrow pillars and very wide doors and windows give maximum vision. Nickel plated radiator shell and headlamps further accentuate the exterior attractiveness, while choices of four colors in pyroxylin finish are offered.

Simplicity in design has also been carried to the ignition. There is only one coil, in a waterproof case. There are no vibrators to adjust, and no exposed cables to work loose or short circuit from water. The distributor is located in a readily accessible position on top of the engine.

Centrifugal water pump, large radiator and airplane propeller-type fan provide a cooling system which makes the car very difficult to overheat, except from abuse, such as running without enough oil, or dry radiator.

From 20 to 30 miles to a gallon of gasoline, depending upon driving speed, is the gasoline consumption announced. Feed to carburetor is by gravity.

The Oiling System.
The oiling system, also a distinctive Ford design, is a combination of pump, splash and gravity feed. The new transmission is of the selective sliding gear type, with standard shift, three speeds forward and one reverse. The main shaft runs on ball bearings, the center shaft on roller bearings and the reverse idler on bronze bearings, a power saving design unusual on light cars. Shifting of gears is noiselessly and easily accomplished, at the pressure of a finger.

Multiple dry-disc clutch, rear axle of three-quarter floating type housed in electrically welded steel, and spiral bevel gear drive are interesting features. The axle shafts carry none of the weight of the car, the wheels running on roller bearings in the housings. Newly developed springs of the transverse semi-elliptic type and hydraulic shock absorbers prevent excessive up-and-down movement and remove side sway.

Irreversible steering gear, which prevents shocks from being transmitted back to the hands of the driver, makes handling exceptionally easy. Maximum steering safety is further provided by a gear housing of welded steel forgings, and a steel tube steering column welded into the housing, making a sturdy and exceptionally safe one-piece unit.

Ford designed steel spoke wheels.

completely welded into one assembly, are provided. There are six models of the new car. They are the sedan, touring, sport coupe, coupe, Tudor sedan and Fordor sedan.

Local dealers are preparing for a public inspection tour of the new models of the new Ford car, which shows in photographs and a model.

Ford's Free Trade School

Sudbury, Mass., Nov. 29.—A free trade school where boys will be taught to think and to do things with their hands, is to open here early next year under the patronage of Henry Ford.

Mr. Ford, who is here on one of his frequent visits to his Wayside Inn property, where the millionaire auto manufacturer has indulged his interest in colonial relics and reproductions, declared the project would be modeled on his vocational school at Detroit.

Instead of the 200 boys accommodated, however, the Sudbury institution will care for about thirty but instead of being a day school it is planned to board the students, who will be recruited largely from the immediate neighborhood.

A distinctive feature of the program is Mr. Ford's plan to fix no definite term of years for the school's subjects.

"It will be merely a question of how long it will take them to learn all they can here," he said. "Then they will be through with the school."

The school will not be merely for boys of a mechanical bent, the manufacturer explained, but rather will be a place where a certain amount of broad study will be required. While the curriculum will afford courses in farming, hotel and dairy management, baking, buying and selling and various vocational courses, it will also lay considerable stress on academic matters.

TEAM SCORES IN NORTHEASTERN DISTRICT

The Y. M. C. A. team bowled a game on their alleys Tuesday night in competition with other pin aggregations in the Northeastern District of New York state. The scores are sent to headquarters where the highest at the end of the season wins the championship. The following results were registered by the local team:

Bedford . . . 233 193 197 622

Coley . . . 188 213 173 574

Keresman . . . 191 179 177 547

Paul . . . 210 193 133 536

Neuls . . . 167 162 222 551

Total . . . 939 940 962 2831

What Is a Novel?

According to Andre Gide, no book is a novel unless it is a work in which there exists a conflict of characters and a conflict of ideas.

Three Valuable Prizes Offered

In Christmas Lighting Contest

A PRIZE WINNING INSTALLATION.

Three beautifully designed electrical home conveniences are offered as first, second and third prizes in the Christmas lighting contest which is being conducted by the Electric Service League of Kingston and in which private homes of Kingston are eligible to compete. The prizes which will be awarded to the three homes most effectively decorated with light for the holiday season are:

First prize: Electric percolator set, with percolator, cream pitcher, sugar bowl and tray.

Second prize: Electric waffle iron set, with waffle iron, batter pitcher, sugar shaker and tray.

Third prize: Sunbeam electric toaster.

As soon as the prizes are received by the Electric Service League, they will be placed on exhibition in a prominent display window and an announcement will be made in The Freeman.

The old cheering message of the Christmas candle in the window will this year shine forth with a new radiance, as homes throughout the city of Kingston carry Christmas cheer out of doors with colored lighting effects in this Christmas Lighting contest of the Electric Service League.

The conditions governing the contest are very simple. It is expected that many entries will be made and that the streets of Kingston during evening hours will be transformed into a realm of festive light, radiating

holiday joy in hues of many colors which gleam from green garlands and branches and wreaths. Small homes need have no hesitancy in entering for they will have just as good a chance to win as the larger ones. Often the simple lighting decoration is just as effective as the more elaborate scheme, sometimes more so.

These are the rules of the contest: 1. Enter your home on the coupon appearing daily in the Kingston Freeman and mail it to the Christmas Lighting Contest Director, 511 Broadway, Kingston, N. Y.

2. All entries must be received not later than noon December 22nd.

3. Any type of approved lighting equipment may be used.

4. All competing installations must be lighted every evening from December 22nd to January 1st inclusive.

5. The lighting may include Christmas tree lamps, lamps of standard household wattage, and flood lighting.

6. Entrants are restricted to private residences.

7. Members of the Electric Service League and employees of the Central Hudson Gas and Electric Corp. are not eligible to compete.

The two exceptions made in rule No. 7 were approved by the organizations mentioned and were decided upon to eliminate from the contest entrants who would have unusual facilities for producing effective installations. It is believed, however, that many of these people may light their homes although they are not allowed to enter the prize competition.

While out-of-door lighting for Christmas has been growing more and more popular every year, it was in the city of Denver that the first Christmas out-door lighting contest was held, and since their first contest in 1922, the idea has traveled over the country and this year many cities throughout the United States will become cities of light through these contests.

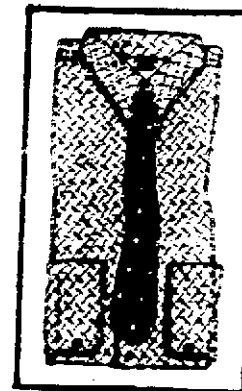

The home illustrated in today's paper was one of the prize winners in the Denver contest last year. It is unfortunate that a newspaper production of the photograph cannot show the details of the installation very clearly. It is a comparatively simple but very effective treatment.

Evergreen boughs studded with lights frame the Colonial doorway, while perched on the small roof over this door is a lighted Christmas tree. In each window a lighted wreath also sends forth its greeting. While not really a part of the decoration, the children's Christmas tree in the sun porch on the left side adds to the general effect.

Suggestions for lighting installations in this Christmas residential lighting contest will be printed from time to time in the Kingston Freeman and members of the Electric Service League will be glad to give suggestions upon request.

The coupon which will appear every Wednesday and Saturday until the final entrance day, December 22, and which must be filled out by each entrant, will be found in an advertisement on another page.

Notice is hereby given that sealed bids for reconditioning the City Hall in accordance with the plans and specifications prepared by Myron S. Teller, Gerard W. Betz

and George E. Lowe, Architects, will be received if filed with the City Clerk on or before 7 p. m. on November 22, 1927, and then publicly opened and read.

The right is reserved to reject any or all bids and to accept whichever bid may, in the judgment of the Common Council, be the most advantageous to the City, or to advertise or take any action relative thereto which may seem to them right and proper.

Each bid must be accompanied by a certified check for 2% of the amount of the bid, made payable to the Treasurer of the City of Kingston, N. Y. The checks of the unsuccessful bidders will be returned to them immediately upon the awarding of the contract, or on demand. In case of failure to sign the contract the certified check accompanying the bid accepted will be retained by the City of Kingston as liquidated damages for such failure.

The bidders whose proposal is accepted will be required to enter into a contract within five days thereafter, giving a Surety Company bond acceptable to the Common Council of the City of Kingston, N. Y., for an amount equal to the amount of the bid of his bid. His certified check will be returned to him upon the signing of his contract.

Plans and specifications may be obtained at the office of the architects, Advance Building, Kingston, N. Y., on payment of \$25, which will be returned on receipt of the plans and specifications in good condition. Separate proposals covering the general contract and the plumbing, heating and water service must be made.

Dated, Kingston, N. Y., November 1, 1927.

A. A. STYLES, City Clerk.
The time within which to present proposals for the work referred to in the above Common Council to Tuesday, December 2, 1927, at 7 p. m.

A. A. STYLES, City Clerk.

Flood Damage At Jamestown

Business Houses Report Heavy Losses

From Waters Flooding Their Basements

—Streams at Highest Levels

In 20 Years.

Jamestown, N. Y., Nov. 30 (AP).—

Heavy rains during the night gave

the flood situation in southwestern

Chautauque county a serious aspect

today. Business houses in the

Brooklyn Square section of this city

reported heavy losses from waters

flooding their basements. Squads of

firemen were summoned to man

pumps to prevent further damage to

unmovable stocks. A special de-

partment of firemen was assigned to the

Art Metal Construction Company

plant in Taylor street where there

was grave danger that it might be-

come necessary to extinguish fires in

the boiler rooms, causing large ma-

terial loss and putting hundreds of

employees out of work.

The Conewango creek and other

streams in outlying sections are at

their highest levels in 20 years.

Thousands of acres of farming and

timberlands are inundated, and many

farm buildings are surrounded by

water.

Sections of Frewsburg, Levant and

other villages are submerged, and

there is danger that motor traffic

may become impossible on the

Jamestown-Warren highway in sec-

tions where creeks have overflowed

bridges and waters from marshy

tracts have risen several inches

above the roadbed. The most seri-

ous aspect is the possibility that

cessation of transportation may

cause heavy losses to farmers and

business firms that ship goods daily

over the highway.

Chautauque Lake is far above the

spring floods level. Year round resi-

dents at Greenhurst and Elmhurst

were obliged to use rowboats to reach

the main highway on the east side

of the lake. One man reported that

he rowed four feet above a bridge
